DEPARTMENT OF PUBLIC WELFARE

RICHARD K. CONANT, *Commissioner*

To the Honorable Senate and House of Representatives:

The Thirteenth Annual Report of the Department of Public Welfare, covering the year from December 1, 1931, to November 30, 1932, is herewith respectfully presented.

Members of the Advisory Board of the Department of Public Welfare

Date of Original Appointment	NAME	Residence	Date of Expiration
December 10, 1919	Jeffrey R. Brackett	Boston	December 1, 1934
December 10, 1919	George Crompton	Worcester	December 1, 1933
December 10, 1919	Mrs. Ada Eliot Sheffield	Cambridge	December 10, 1932
December 10, 1919	Mrs. Mary P. H. Sherburne	Brookline	December 10, 1932
October 9, 1929	John J. O'Connor	Holyoke	December 1, 1933
July 1, 1931	Harry C. Solomon, M.D.	Boston	December 1, 1934

Divisions of the Department of Public Welfare

BOSTON

DIVISION OF AID AND RELIEF: Room 30, State House

Frank W. Goodhue, Director

Miss Flora E. Burton, Supervisor of Social Service

Mrs. Elizabeth F. Moloney, Supervisor of Mothers' Aid

Edward F. Morgan, Supervisor of Settlements

BUREAU OF OLD AGE ASSISTANCE: Room 6, State House

Francis Bardwell, Superintendent

DIVISION OF CHILD GUARDIANSHIP: Room 43, State House

Miss Winifred A. Keneran, Director

DIVISION OF JUVENILE TRAINING: 41 Mt. Vernon Street

Charles M. Davenport, Director

Robert J. Watson, Executive Secretary

Miss Almeda F. Cree, Superintendent, Girls' Parole Branch

C. Frederick Gilmore, Superintendent, Boys' Parole Branch

SUBDIVISION OF PRIVATE INCORPORATED CHARITIES: Room 37, State House

Miss Florence G. Dickson, Supervisor of Incorporated Charities

Miss Alice M. McIntire, Supervisor of Incorporated Charities

Miss Mary C. Robinson, Supervisor of Incorporated Charities

SUBDIVISION OF HOUSING AND TOWN PLANNING: 14 Beacon Street

Edward T. Hartman, Visitor to City and Town Planning Boards

Institutions under the Supervision of the Department of Public Welfare

State Infirmary, Tewksbury. John H. Nichols, M.D., Superintendent

Massachusetts Hospital School, Canton. John E. Fish, M.D., Superintendent

Lyman School for Boys, Westborough. Charles A. Keeler, Superintendent

Industrial School for Boys, Shirley. George P. Campbell, Superintendent

Industrial School for Girls, Lancaster. Miss Catharine M. Campbell, Superintendent

PART I

REPORT OF THE COMMISSIONER OF PUBLIC WELFARE

It is quite remarkable that in spite of present economic conditions the high standards of care at our institutions and in our family welfare and child welfare work have this year been maintained. The Governor, the Budget Commissioner and the Legislature have recommended and appropriated sufficient funds to make this possible. We believe that the superintendents of the institutions, the directors and the staff have cooperated to make such economies as could be made without sacrificing the basic standards.

No new appropriations for construction have been necessary. The building program of the previous year anticipated this year's expansion of needs. The number of patients at the State Infirmary increased to 3,252 on December 1, 1932, 84 more than the peak number of last year, which on February 1, 1931, was 3,168. The extraordinary pressure upon the State Infirmary has been met by the opening of a new dormitory for two hundred men. The completion of the new industrial building provides a keystone for the arch of occupational activities for those patients who are able to work. By stopping the admission of insane patients and by a transfer of insane patients to the Metropolitan State Hospital one dormitory building was freed for the use of sane patients and the pressure for bed space was relieved. The stopping of the admission of insane persons marks an important change in policy which will be of great benefit to the patients and to the institution. In time the effect may be to reshape the central portion of the institution and attach it to the men's and women's hospitals.

The unemployment emergency necessitated the expansion of the Division of Aid and Relief to meet the needs of 20,000 families in distress. The appropriation for this Division will amount to over \$5,000,000. Very wisely the Legislature squarely met the essential requirement of adequate investigation and visitation by authorizing the addition of thirty visitors to the staff of eighteen visitors who were in charge of this work. With forty-eight visitors for the temporary aid cases we have been able to hold the situation. The number of cases increased from 11,904 on December 1, 1931, to 20,603 on December 1, 1932. These cases of unsettled persons amount to nearly 25 per cent of all the persons who are aided by cities and towns. From this sample we can judge reasonably well the quality of the work done by local boards of public welfare.

Massachusetts has so far been able to cope with the relief needs of the depression without Federal aid. The cities and towns have been able to handle the problem without state aid. The local boards of public welfare have been strengthened during the last twenty years by their new responsibilities of mothers' aid, adequate standards of temporary aid and old age assistance. They have developed new methods and new policies to meet the legislative reforms which have changed the old system of pauper aid into a modern welfare system. State supervision has been strengthened and the cooperative relationship between local boards and state visitors has grown to be a more friendly and satisfactory one. All these changes have enabled the boards of public welfare so far to stand the test of the greatest emergency they have ever faced. The expense has been considerable but it has not risen above 10 per cent of the total expenditures of the cities and towns. The net expenditures of the cities and towns for assistance have increased from \$6,900,000 in 1929 to \$18,100,000 in 1931. A set of policies governing temporary aid was adopted by the Advisory Board and is printed with the report of the Division of Aid and Relief.

The first year of operation of the Old Age Assistance Law ended on June 30, 1932. Sixteen thousand four hundred seventy-six (16,476) persons received such assistance during the year. On December 1, 1932, the number of persons in receipt of such assistance was 16,802, the expenditure being at the rate of \$5,242,224 a year.

There can be no question that the Old Age Assistance Law is a great boon to the aged and needy citizens who otherwise would have had much misfortune in

their old age. The year 1931 turned out to be an expensive time to put such a law into effect. The depression caused the number of applicants to increase to double the number which we had estimated in 1929, just as it caused the number of persons who need temporary aid to double; yet the expense did not increase proportionately because the prices of food and other things dropped so much that the aid averages \$6.00 per week instead of the average of \$8.00 which we gave as an estimate in 1929 before the depression began. We estimated that the cost the first year would be \$3,328,000. The actual cost for the first twelve months was approximately \$2,800,000, partly because of the fact that during the first year of operation of a law of this sort the cases are taken on gradually and are not all carried for the entire period.

Special studies authorized by the Legislature this year were as follows:

1. A report relative to the probable cost of reducing the minimum age of persons entitled to old age assistance from seventy to sixty-five years. We estimate the probable additional cost at \$3,669,120.

2. A report relative to the time of payments of accounts to cities and towns for reimbursement in state cases. The special commission consisting of the three Commissioners of Administration, State Aid and Pensions and Public Welfare reported that the time of reimbursement should not be advanced.

3. A report relative to county training schools. The special commission, consisting of five state commissioners and three county commissioners, reported that the five county training schools should be consolidated into two and that a juvenile classification board should be set up to classify all juvenile delinquents in the state, with power to transfer them from institution to institution or to foster home care in the Division of Child Guardianship. The county training schools have long been a subject of controversy. We believe that the two steps recommended in this report can now actually be taken and will lead to an improved system of dealing with juvenile offenders, truants and problem children. The complete report is published as a house document and includes surveys of the county training schools made by the Departments of Mental Diseases, Public Health, Education and Public Welfare and the Commission on Administration and Finance.

Duties of the Department of Public Welfare

The State Department of Public Welfare has the following principal duties:

1. Supervision over the five state institutions of the Department:
 State Infirmary, Tewksbury.
 Massachusetts Hospital School, Canton.
 Lyman School for Boys, Westborough.
 Industrial School for Boys, Shirley.
 Industrial School for Girls, Lancaster.
2. Direction of public relief, both indoor and outdoor, given to unsettled persons by cities and towns.
3. Supervision of mothers' aid rendered by cities and towns.
4. Supervision of old age assistance rendered by cities and towns.
5. Care and maintenance of delinquent, neglected and dependent children coming into the custody of the Department through court commitment or otherwise.
6. Institutional custody and treatment of juvenile offenders committed by the courts to the three State Training Schools, and the care of these children in families when on parole.
7. General supervision of the work of the city and town planning boards.
8. Visitation and inspection of private incorporated charitable agencies; investigation of petitions for the incorporation of private charities; and the requirement and reception of annual returns from domestic and foreign charitable trusts and from foreign charitable corporations.

Among the other supervisory and inspectional duties of the Department may be mentioned the following:

1. Visitation and inspection of city and town infirmaries.
2. Visitation and inspection of the five county training schools.
3. Visitation and investigation of care given to all children supported by the several cities and towns.

4. Visitation and investigation of care given to all adults supported in families, other than their own, by cities and towns.
5. Reception and classification of the annual returns of cities and towns relative to poor persons supported and relieved and the cost thereof.
6. Visitation and inspection of wayfarers' lodges and public lodging houses.
7. Investigation of legal settlement of persons, possibly state charges, who have been supported, relieved or buried by cities and towns, and of sane inmates of state institutions.
8. Sending poor persons to the places within and without the Commonwealth where they belong.
9. Investigation of petitions for adoption of children under fourteen years.
10. Execution of the laws concerning infants and the licensing of infant boarding houses.
11. Licensing maternity hospitals.
12. Licensing boarding homes for the aged.
13. Supervision of annual census of crippled children and social service for crippled children, especially for those unable to attend school.

RICHARD K. CONANT,
Commissioner of Public Welfare.

DIVISION OF AID AND RELIEF

FRANK W. GOODHUE, *Director*

The Division of Aid and Relief includes five subdivisions: Subdivision of Settlements, Subdivision of Relief, Subdivision of Mothers' Aid, Subdivision of Social Service, and Bureau of Old Age Assistance.

The reports of the supervisors of these subdivisions and of the Superintendent of Old Age Assistance are herewith submitted.

Subdivision of Settlements

EDWARD F. MORGAN, *Supervisor*

The subdivision of settlements investigates the settlements of patients admitted to the State Infirmary, State Farm (infirmary department), state sanatoria, and the Massachusetts Hospital School, and generally supervises the settlement work of the division. The subdivision also discharges inmates of the State Farm (infirmary department). There were 37 persons remaining in the infirmary November 30, 1932. As soon as these inmates can be removed, the use of the infirmary department by this department will be discontinued.

The following table is a summary of the work done during the year in the examination and investigation of settlements of inmates of the state institutions:

INSTITUTIONS	Examina- tions	Orders Issued	Settle- ments Found	No Settle- ments	Orders With- drawn	Total Cases Returned
State Infirmary	3,170	884	671	226	114	1,011
State Farm	1	1	4	4	2	10
Lakeville State Sanatorium	192	159	167	17	—	184
North Reading State Sanatorium	258	225	221	8	—	229
Rutland State Sanatorium	225	168	168	33	—	201
Westfield State Sanatorium	185	145	157	12	—	169
Massachusetts Hospital School	45	45	48	9	—	57
Totals	4,076	1,627	1,436	309	116	1,861
Cases pending Nov. 30, 1931				621		
Cases pending Nov. 30, 1932				387		

Subdivision of Relief

JOHN B. GALLAGHER, *Supervisor*

The subdivision of relief supervises public relief rendered by boards of public welfare and boards of health to persons, in their own homes and in hospitals, who have no legal settlement.

The subdivision also investigates, upon the request of the Division of Vocational Education, the circumstances of persons receiving vocational training, who apply for aid during rehabilitation.

Temporary Aid (General Laws, ch. 117, sect. 18). — Cities and towns are au-

thorized by statute to furnish adequate assistance to poor persons having no lawful settlements, if so ordered by the Department of Public Welfare.

Chapter 69, Acts of 1932, authorized the employment of twenty-nine temporary investigators who were appointed in March. Continuance of these temporary investigators after November 30 was authorized by chapter 307 of the Acts of 1932. Notwithstanding the addition of these temporary investigators, it has not been possible to keep pace adequately with the constantly increasing number of new cases, which reached a total of 27,645 during the year, as well as make the necessary revisits in connection with the continuing case load, which aggregated 20,603 cases at the end of the fiscal year. Ninety per cent of the new cases received were aided because of unemployment.

TEMPORARY AID POLICIES

The following temporary aid policies were adopted by the Commissioner and Advisory Board of the Department of Public Welfare to govern the administration of Temporary Aid. They embody principles which we believe to be based upon the best experience of local boards of public welfare and state visitors. As far as state cases are concerned, these policies are in effect rules governing reimbursement because the State Department is financially responsible for such cases. We believe that it would also be well for local boards of public welfare to apply these policies to cases having legal settlement:

1. *Immediate Relief in all Cases.* Persons who are destitute and in need should be relieved by the board of public welfare of the city or town in which they apply for aid without regard to the ultimate liability of that particular city or town. "The person in distress shall not be compelled to wait until notice can be given to a city or town and while, perhaps, a controversy is existing as to its liability." (Shaw, C. J., in *Smith v. Inhabitants of Colrain*, 9 Metcalf, 492 at 495.)

2. *State Cases.* A local board of public welfare has authority to grant such temporary aid as it deems necessary in unsettled cases until the state makes a definite authorization. The local board of public welfare should take the same action in "state cases" as in "settled cases" and should discontinue or reduce aid in state cases when it becomes possible, without awaiting the action of the Division of Aid and Relief.

3. *Interstate Cases.* The attention of the Division of Aid and Relief should be called to all cases of dependent persons who appear to have a legal settlement in another state. The Division has understandings with the public welfare departments in other states regarding removals from one state to another. In general, families should not be removed if the cause of dependency is temporary, such as unemployment.

4. *Investigation.* Local boards of public welfare should employ enough visitors to give detailed individual consideration to the applicant when he first applies at the office for aid and to make a thorough investigation of the need for aid by home visits and inquiries into the resources of the family and of its relatives, its income and the prospect of income. Except in emergency cases, no aid should be granted until a thorough investigation has been made.

The visitor should interview the applicant in private and should from the outset endeavor to create sympathetically such an understanding that the applicant will be frank and accurate as to his condition and will have the right attitude of doing whatever he can to improve his condition in return for what he receives from the hard-pressed taxpayer. To protect the town in cases where fraud is discovered it has become necessary to ask each applicant to sign under penalties of perjury an affidavit supporting the facts given in his application for aid.

Boards of public welfare are urged to use for contacts with applicants such visitors as, by training and experience added to natural ability, can win the applicant to a cooperative attitude and a desire for self help. Such a visitor will avoid mechanical methods and technical terms and will try to put himself in the applicant's place. The first step toward a real economy in public welfare is the employment of a sufficient staff of well-equipped visitors.

5. *Amount of Aid.* The Department does not attempt to set up a fixed sum as a minimum for subsistence. A budget which may be used as a guide may be

had upon application to the state visitor. It contains a method of estimating food allowances for each member of the family, which is applicable in every city and town according to the rise and fall in local prices.

It is a good general principle to refuse aid to the following types of applicants. Deviation may be justified by the facts in a particular case:

Persons with accounts in savings banks, postal savings or other banks, or definitely proved hidden savings or property which can be liquidated.

Persons with automobiles, unless these are essential to finding work or to doing part-time work. If the car cannot be sold to advantage the board should hold the registration plates.

Persons with sons or daughters who can assist or where there are parents or grandparents who can aid. Reasonable pressure should be brought to bear upon collateral relatives who are able to aid even though they are not legally liable.

Persons who have title to real estate upon which it is possible for them to raise money, and persons with substantial amounts of life insurance upon which cash can be obtained.

Temporary assistance may be necessary pending the adjustment of matters referred to above.

Boards should be especially careful before aiding the following types of persons and should be guided by the entire family situation: Non-supporters, persons with criminal records, and persons who refuse to work. Under ordinary conditions single persons should be self-supporting and, unless they are aged or incapacitated, should not be aided under the Temporary Aid Law. In periods of unusual emergency, such as a business depression, it may become necessary to aid single persons.

6. *Support in Institutions.* Reimbursement by the Commonwealth for the support of patients in hospitals is limited to a rate not exceeding \$10.50 a week, and the law provides that no charges whatever in excess of that amount may be allowed. (General Laws, ch. 122, sect. 18.)

The State Infirmary at Tewksbury is available for the care and treatment of sick persons having no legal settlement. Insane persons, persons infected with smallpox or other diseases dangerous to the public health, or any other sick persons whose health would be endangered by removal should not be sent to the State Infirmary. Boards of public welfare are requested not to send minors to the State Infirmary unless authorized by the Department of Public Welfare. If a patient who is to be sent to the State Infirmary has received local medical or other institutional treatment or observation, boards of public welfare are requested to attach to the permit of admission, whenever possible, a letter from the attending physician describing the case.

7. *Medical Aid.* Reimbursement for medical attention and medicine may be claimed under the Temporary Aid Law on form No. 1456, except in cases of serious illness, in which case reimbursement for Sick Aid on form No. 1454 should be claimed. Towns employing a physician whose compensation is by a fixed salary cannot be reimbursed for medical attendance in excess of the proportionate cost of the visits furnished to the total number of visits made by the physician during the year.

8. *Obligations of the Person Assisted.* The applicant will ordinarily welcome the opportunity to work in return for the aid granted. If the opportunity is properly presented to him and if he does accept it, the obligation which he owes to the town should be made clear and be made the basis for securing an agreement to do whatever he should for the benefit of the town and the improvement of his family. This obligation goes to the extent that the law requires the applicant to reimburse the town if he ever becomes able to do so. (General Laws, ch. 117, sec. 5.) He should agree to inform the board of public welfare of any employment obtained or money received. The board should use discretion as to the type of work required, and satisfactory evidence of service performed should be presented before the following week's aid is granted. The applicant should undertake to make every effort possible to improve his condition, to find work as soon as possible and to improve the living conditions of the family and the health of the children in whatever ways the board of public welfare recommends.

9. *Social Service Index.* The Social Service Index has become a necessary adjunct of the Massachusetts system of welfare. It prevents duplication of effort and brings about a better cooperation between public and private agencies. In cities and towns where there is no central index, boards should register with and inquire of the Social Service Index, 41 Hawkins Street, Boston.

10. *Notices and Bills.* Reimbursement by the Commonwealth in temporary aid and sick cases is limited to a period of five days next before notice is mailed. The notice should contain the following information:

1. Address of the person aided.
2. Date when first aid was granted.
3. Cause of aid.
4. Amount and kind of aid.
5. Facts which show that the person aided has no legal settlement in any city or town in Massachusetts.

Bills claiming reimbursement for aid granted under the Temporary Aid and Sick State Poor Laws must be rendered to the Department in duplicate on or before the first day of October annually, and shall be for the twelve months ending on the thirtieth day of June preceding. Failure to render a bill as aforesaid may cause disapproval of a claim.

On December 1, 1931, there were 11,904 continued cases including 53,568 persons, and during the year 27,645 notices were received from 305 cities and towns concerning 117,491 persons.

Causes of Aid

	1930	1931	1932		1930	1931	1932
Illness	1,036	797	810	Orphans	9	9	14
Desertion	375	365	531	Insanity	23	23	23
Widowhood	223	470	876	Blindness	10	10	12
Old Age	175	159	173	Non-support	71	96	109
Unemployment	6,260	12,439	24,359	Miscellaneous	23	2	3
Insufficient income	768	762	618				
Husband in correctional institution	160	140	117	Totals	9,133	15,272	27,645

The amounts annually appropriated by the Legislature are necessarily for current and previous years. The following tabulation shows the actual amounts reimbursed for aid rendered by cities and towns during the years designated:

YEAR	Number of Cases	Number of Persons in Families	Amounts Reimbursed
1912	2,847	12,339	\$48,192 85
1913	3,131	13,434	63,203 05
1914	4,848	20,714	108,337 29
1915	7,305	32,056	178,762 28
1916	5,165	21,043	159,205 53
1917	5,664	22,258	227,831 59
1918	4,358	17,701	261,217 44
1919	3,756	15,668	311,148 30
1920	3,223	13,313	334,565 05
1921	8,093	32,372	635,585 63
1922	6,472	29,124	586,296 43
1923	4,320	19,370	432,334 70
1924	5,765	27,279	642,439 34
1925	6,182	28,429	661,219 39
1926	5,584	25,720	622,301 80
1927 (January 1 to June 30)	4,118	18,611	398,301 80
1927-28 (July 1 to June 30)	6,406	30,428	886,317 97
1928-29 (July 1 to June 30)	7,099	27,126	1,001,797 82
1929-30 (July 1 to June 30)	8,639	35,481	1,161,425 55
1930-31 (July 1 to June 30)	16,352	69,496	1,973,950 05

Chapter 241 of the Acts of 1926 provides that claims against the Commonwealth shall be rendered to the department on or before the first day of October annually, and shall be for the twelve months ending on the thirtieth day of June preceding.

Shipwrecked Seamen (General Laws, ch. 102, sect. 5). — During the year no cases were reported.

Sick State Poor (General Laws, ch. 122, sects. 17, 18). — The sick law provides that no persons shall be sent to the State Infirmary whose health would be endangered by removal.

Cities and towns are reimbursed for the support of persons having no legal settlement who are ill in their homes or in public or privately controlled hospitals, infirmaries, or institutions for the deaf, dumb, or blind, provided such persons are not in suitable condition for removal to the State Infirmary when applying for assistance.

On December 1, 1931, there were 209 continued cases, and during the year notices were received from 174 cities and towns concerning 8,762 persons represented as too ill to be removed.

Dangerous Diseases (General Laws, ch. 111, sect. 116). — The law provides that a board of health shall retain charge, to the exclusion of the board of public welfare, of any person ill with a disease defined by the Department of Public Health as dangerous to the public health.

If any member of a family is ill with a disease declared dangerous to the public health, the aid required by the other members of the family is furnished by the board of public welfare, unless the family is quarantined as provided in General Laws, ch. 111, sect. 95, in which event the board of health furnishes all aid required. In hospital cases, reimbursement by the Commonwealth is governed by the provisions of General Laws, ch. 122, sect. 18.

On December 1, 1931, there were 244 continued cases, and during the year notices were received from boards of health of 92 cities and towns concerning 2,277 persons ill with diseases declared dangerous to the public health.

Burials (General Laws, ch. 117, sect. 17, as amended by chapter 298, Acts of 1923). — The law provides that if the expense of burial is not paid by kindred "An amount not exceeding \$40 for the funeral expenses of each person over 12 years of age, and not exceeding \$20 for the funeral expenses of each person under that age, shall be paid by the Commonwealth; provided that the board of public welfare shall file with each claim an affidavit of the undertaker stating the total amount of his bill, the amount received from the town, and the amount received from all other sources, and provided, further, that if the total expense of the burial, by whomsoever incurred, shall exceed the sum of \$100 no payment therefor shall be made by the Commonwealth."

The number of burial claims received during the year was 571 from 76 cities and towns.

Vocational Education (General Laws, ch. 74, sect. 22B). — The law provides that the Department of Public Welfare shall, upon request of the State Board of Vocational Education, make an investigation of the circumstances of persons actually in training afforded by said board, who apply for aid during rehabilitation, and shall make a report of its finding to said board.

During the year 5 applications were received and investigated, 4 of which were approved.

AUDIT

The number, amount, and allowance of the bills examined on account of cases of temporary aid, sick state poor, dangerous diseases, burial, old age assistance, and mothers with dependent children are shown in the following tabulation. It is to be noted that the total shown in this table may vary somewhat from the total paid out of the treasury during the fiscal year from the appropriation in question. This possible variance arises from the fact that bills audited by this department are in some cases not actually paid during the year for which the audit is shown. For actual expenditures from these respective appropriations see page 70.

CLASSES OF CASES	Bills	Claims	Allowances	Deductions
Temporary Aid	13,213	\$2,846,633 73	\$2,000,388 61*	\$856,858 53
Sick State Poor	4,713	126,433 24	99,999 88	26,433 36
Dangerous Diseases	1,165	118,926 56	96,189 60	22,736 96
Burial	430	10,816 74	8,008 24	2,808 50
Mothers with Dependent Children	3,236	992,713 59	938,940 00	53,773 59
Old Age Assistance	15,396	2,187,591 10	2,036,180 74	151,410 36
	38,153	\$6,283,114 96	\$5,179,707 07	\$1,114,021 30

* Includes \$10,613.41 for transportation of dependents

REMOVALS

The department is charged with the duty of removing sane poor persons to cities and towns within the Commonwealth, or, when not belonging in Massachusetts, to the state or place where they belong. The following table shows the removals made during the year:

	1930	1931	1932
To other countries	92	63	121
To other states	240	346	473
To towns of residence	1,351	1,330	1,173
	1,683	1,739	1,767

Supervision of Wayfarers' Lodges and Cheap Lodging Houses

The coming of the second winter of acute unemployment has found the housing conditions for homeless men and women materially improved. Much renovation, such as painting, the purchase of new material, etc., has been done. The majority of the commercial houses have furnished work to unemployed lodgers in accomplishing this.

One commercial house was closed during the year, yet there is a total bed capacity slightly in excess of last year, 1,849 in 1932 as against 1,817 last year. These accommodations are divided as follows in Boston: Municipal, 180 beds for men and 40 for women; Charitable, 895 beds for men and 47 for women. The commercial houses have 687 beds for men.

While some of the beds in a few of the houses maintained by incorporated charities are of the double-deck type, and it is felt that in normal times this should not be permitted, yet with the necessity for shelter for all, it is not the time to curtail existing capacity.

When the Boston situation is compared with the larger cities of the country, it would seem evident that there has not been a large influx of homeless and detached unemployed men, and that the housing of this class in Boston is being cared for in a satisfactory manner.

Subdivision of Mothers' Aid

(General Laws, Chapter 118)

MRS. ELIZABETH F. MOLONEY, *Supervisor*

STATISTICS

At the beginning of the fiscal year, on December 1, 1931, there were 2,982 mothers with 8,107 dependent children under sixteen years of age receiving Mothers' Aid.

They were classified as follows:

A. Classified as to legal settlement:

1. Without legal settlement:

434 mothers with 1,098 dependent children.

2. With a legal settlement:

2,548 mothers with 7,009 dependent children.

B. Classified as to widowhood:

1. Widows:

2,327 mothers with 6,229 dependent children.

2. Not widows:

655 mothers with 1,878 dependent children.

Note. — The 655 living husbands classified as follows:

336 were totally incapacitated, of whom

74 were insane, and

262 had chronic illness. Of these

90 had tuberculosis and

172 had diseases other than tuberculosis.

218 were deserting husbands.

50 were divorced or legally separated.

51 were in jail.

During the year 890 new cases were aided and 493 cases were closed, so that there were 3,379 mothers in receipt of Mothers' Aid at the close of the fiscal year (November 30, 1932).

The new cases that were received during the fiscal year included 890 mothers with 2,758 dependent children, and were classified as follows:

A. Classified as to legal settlement:

1. Without legal settlement: 144 mothers with 456 dependent children.
2. With a legal settlement: 746 mothers with 2,302 dependent children.

B. Classified as to widowhood:

1. Widows: 591 mothers with 1,821 dependent children.
2. Not widows: 299 mothers with 937 dependent children.

Note. — The 299 living husbands classified as follows:

146 were totally incapacitated, of whom
 19 were insane, and
 127 had chronic illness. Of these
 60 had tuberculosis and
 67 had diseases other than tuberculosis.
 78 were deserting husbands.
 43 were divorced or legally separated.
 32 were in jail.

Of the 890 new Mothers' Aid cases 124 were reopened cases as follows:

Families removed from one town to another, 22. Insufficient income, 85. Conformity with policies, 5. Husband returned to institution, 3. Husband returned to jail, 2. Second husband divorced, 1. Second husband died, 1. Home re-established, 3. Incapacitated husband died, 1. Husband unable to work, 1. Total, 124.

Reasons for closing Mothers' Aid cases:

Sufficient income, 197. Applicant remarried, 36. Family moved, 27. Husband resumed support of family, 25. Non-conformity with policies, 59. Youngest child sixteen years of age, 63. Unfitness of mother, 34. Transferred to other sources of relief, 12. Applicant died, 20. One dependent child, 5. Male lodger, 4. Applicant in hospital, 4. Unsuitable housing, 1. Application withdrawn, 1. Disbandment of home, 1. No dependent children at home, 3. Town of settlement refused to reimburse town aiding family, 1. Total 493.

Duration of Mothers' Aid cases closed between December 1, 1931 and November 30, 1932:

Less than 1 year, 155. Less than 2 years, 50. Less than 3 years, 42. Less than 4 years, 37. Less than 5 years, 32. Less than 6 years, 19. Less than 7 years, 22. Less than 8 years, 24. Less than 9 years, 13. Less than 10 years, 20. Less than 11 years, 19. Less than 12 years, 9. Less than 13 years, 13. Less than 14 years, 25. Less than 15 years, 10. Less than 16 years, 3. Total, 493.

State Appropriations and Reimbursements for Mothers' Aid

	Appropriations	Reimbursements
Sept. 1, 1913, to Nov. 30, 1914	\$175,000 00	\$174,999 36
Dec. 1, 1914, to Nov. 30, 1915	250,000 00	249,999 62
Dec. 1, 1915, to Nov. 30, 1916	300,000 00	299,998 78
Dec. 1, 1916, to Nov. 30, 1917	400,000 00	399,999 79

Dec. 1, 1931, to Nov. 30, 1932	948,681 45	938,940 00

¹ Unexpended balance used for ensuing year.

² Affected by Chapter 241, Acts of 1926, which changed the period for rendering claims against the Commonwealth.

Number of Mothers' Aid Cases Active at End of Each Fiscal Year since the Enactment of the Law in 1913

1914	2,334	1924	2,900
1915	2,798	1925	2,870
1916	3,035	1926	2,633
1917	3,242	1927	2,592
1918	3,366	1928	2,602
1919	3,743	1929	2,603
1920	3,330	1930	2,795
1921	3,407	1931	2,982
1922	3,371	1932	3,379
1923	3,072		

Distribution of Mothers' Aid cases:

There were 2,606 active Mothers' Aid cases in 39 cities on November 30, 1932; 773 active Mothers' Aid cases in 173 towns¹ on November 30, 1932, and no active Mothers' Aid cases in 143 towns on November 30, 1932.

Due to greatly increased demands for the relief and continued support of thousands of families of the unemployed at a time when cities and towns are suffering from lowered incomes and impaired credit (at a time, too, when taxpayers are demanding lower taxes, and bankers who loan the money are insisting upon "economy in government"), public welfare boards are finding it more and more difficult to secure funds. Consequently, standards of relief-giving have been generally lowered. Emergency relief in terms of food rations and small quantities of coal is being substituted for a regular weekly cash allowance figured on the standard budgetary requirements of each particular family and there is danger that relief-giving may deteriorate into alms-giving.

The commissary system, which has been adopted in a very few localities, smacks of one of the less desirable forms of relief which were abandoned years ago in favor of cash relief.

Isaac M. Rubinow says — "It means the cheapest kind of food without right of choice as to what the food shall be — given by prescription, so to speak — which you will have to eat whether you like it or not."

Edith Abbott says — "The commissary system is another step in the low-relief standard. In normal times, no good relief agency believed in giving relief in kind. They believed in cash relief, — in treating a client as a self-respecting individual who could be trusted to spend his own money as told to spend it. The practice of devoting relief money entirely to orders, and giving people no right to exercise the smallest initiative demoralizes men, women and children."

Carl deSchweinitz says — "What we are doing is to add another curse to this unemployment evil by trying to prescribe for a family what it shall have, and taking from people the right to make their own decisions about their expenditures. If we are to preserve their self-respect and capacity we must give them the privilege of managing their own affairs."

Many men now out of work through no fault of their own have been independent self-respecting citizens of a superior type. Forced as a last resort to apply for public aid, they should be given cash aid with the privilege of making their own decisions as to how it shall be spent.

Those who are charged with the supervision of aid to mothers with dependent children (Mothers' Aid) view with alarm the lowering of standards of relief-giving and the abandonment of the case-method of dealing with applicants for unemployment relief, fearful that such practices are bound to affect the attitude of public welfare boards toward all recipients of public aid. For twenty years the State Department of Public Welfare has labored to raise the level of relief to mothers with dependent children from pitifully small doles of relief in kind to adequate cash relief on a minimum basis of subsistence, and local boards of public welfare have cooperated so that these dependent families have been receiving not only adequate financial support, but they have also had the added advantage of social service.

¹ Fifteen of these towns sent in notices for the first time in several years.

Unless relief of these families is maintained on an adequate basis the growing children are bound to suffer from malnutrition and tuberculosis, the future cost of which will be many times greater than the present cost of nourishing food, suitable clothing and decent housing.

Great pressure is brought to bear upon boards of public welfare to reduce expenditures for relief. Mayors of cities, faced with the necessity of retrenchment, and refused loans until their municipal budgets have been drastically cut, have ordered flat percentage reductions for all aided families. This is a most unsatisfactory and unscientific way to reduce expenses. Each case should be carefully considered and only such reductions should be made as the circumstances warrant.

One local board, which had previously paid the rent directly to the owners of the houses occupied by Mothers' Aid families, was ordered by the mayor to pay no more rents. The cash aid to these families was not increased; it was barely enough to cover the items of food, clothing, heat and light. Although the owners were willing to reduce the rents, the mothers were unable to pay any rent, and so they were finally ordered to vacate. Some families were moved into much cheaper and most undesirable tenements. Owners of the vacated houses suffered heavy losses as they were loathe to evict worthy families and only resorted to such a course when faced with the danger of losing their property by foreclosure proceedings or for tax delinquencies. Whether the rent is paid by the board of public welfare or by the aided family, *rent must be paid*. Shelter is a most necessary item of family expense, and it is the duty of the local board of public welfare to see that the rent of families aided by them is paid. If the rent is not paid to the owner he cannot pay his taxes, and then where is the money for relief to come from?

It is extremely difficult to raise a mortgage on real estate, or to convert a co-operative bank mortgage into a common form or savings bank mortgage. It is practically impossible to sell property. Under these conditions a widowed mother who has title to the house she occupies finds that the ownership of her property is a liability instead of an asset. Such an applicant for Mothers' Aid should be helped to adjust her property affairs so as to conform with the more liberal property policy adopted recently by the State Department of Public Welfare.

Hitherto Mothers' Aid has been granted only to the best type of mothers, but recently, in order to secure reimbursement from the Commonwealth, some local boards are extending Mothers' Aid to any mother who may possibly come within the law. Fitness of the mother and her maintenance of good standards of home and child care must still be insisted upon.

Proof that a *husband is totally incapacitated* (where such a cause of dependency is claimed) should be furnished by the board of public welfare. This proof should be in the form of a hospital report based upon a recent examination and should include the diagnosis and prognosis, and a statement of the examining physician or superintendent that the man is totally incapacitated and that he will be unable to work for at least one year. If the man has a communicable disease, such as tuberculosis, the report should state whether hospital care is advised, or whether he may safely live at home with his family. If the sick man recovers and is able to work, his family is no longer eligible to Mothers' Aid. Periodic examinations of the sick husbands should be made. A man who is lazy rather than sick should be forced to work.

Deserting husbands should be sought and prosecuted for non-support. If they will not try to support their families, they should be sent to jail so that their wages for hard labor may become available for the support of the family.

A recent study of Mothers' Aid cases in a textile city of over 100,000 inhabitants reveals some interesting facts.

Status of the family:

There were 80 mothers receiving aid, of whom 72 were widows.

Of the 8 living husbands, 3 were incapacitated, 3 had deserted, 1 was in jail and 1 was insane.

Children in the family:

There were 280 dependent children under 16 years of age in these families and 40 children over 16 (29 boys and 11 girls).

The work-record of these 40 children is interesting.

4 (2 girls and 2 boys) were unable to work on account of illness.

18 (6 girls and 12 boys) were working.

18 (3 girls and 15 boys) were not working.

Ages of the children:

In 56 families all of the children were under 16 years of age.

In the other 24 families there were 40 children over 16 years of age (as well as dependent children under 16 years).

Legal settlement:

77 mothers had a legal settlement in Massachusetts.

3 mothers had no legal settlement in Massachusetts.

As the board of public welfare was anxious to reduce the amount of aid spent for this group of families, we studied each case with a view to effecting savings, using revised budget figures based upon the present low prices for food and clothing.

In 35 cases small reductions in cash were possible.

In 11 cases increases of cash aid were imperative.

In 34 cases no change of cash aid was recommended.

In 17 cases two or three quarts of milk per day were recommended in addition to the cash aid.

The final result showed that a redistribution of the money appropriated was needed, but no appreciable saving was possible.

Subdivision of Social Service

MISS FLORA E. BURTON, *Supervisor*

Another year of the depression presents much the same problems as the preceding year, but in greater numbers because the savings of many have been depleted and the lives of the workers are becoming more and more impoverished materially and spiritually. Most men want to work, but it is very easy to get into the habit of idleness of mind and body in an environment with no incentive for the future.

It has been hoped that the granting of Old Age Assistance would lessen the number of aged coming to the State Infirmary, but the eighteen months in which the assistance has been given is no criterion of normal times.

On December 1, 1932, there were 3,252 people in the institution, 264 more than last year. Six hundred fifty-seven (657) were insane, 131 patients less than in 1929. This decrease is due to the fact that no commitments of insane persons are being made to the State Infirmary. The daily average population was 3,026. The summer months did not bring any great reduction in numbers, the lowest being 2,789 in June. After the middle of July the men who had gone out for the spring work began to return in large numbers.

MEN

Nineteen hundred fifty-eight (1,958) men on admission were classified according to the diagnosis and prognosis, and are listed as follows:

A. No disease, or minor ailment, and able-bodied	364
B. Slight illness on admission but soon able-bodied	602
C. Chronic sick needing long hospitalization, but not necessarily hopeless	458
D. Diagnosis serious, prognosis poor, indefinite hospitalization necessary	534

Nine hundred sixty-six (966), or 49 per cent, of the above admissions might have been cared for in the local communities where the applicants applied for assistance, either through temporary aid or by a short stay in a local hospital. To prevent or decrease the admission of able-bodied men, it would seem necessary to have more investigation at the source of application.

The number of men who abscond has increased, due largely to the fact that the visitors hesitate to discharge the older men who are friendless and would be unable to find work. These men are unwilling to take advice as to work conditions, insist on finding out for themselves and shortly apply for readmission. Some

chronic cases, especially men with tuberculosis and venereal infection, become impatient at slow recovery, refuse the physicians' advice and abscond. These, too, frequently return for further treatment. Patients are not discharged against the advice of the physician or when it is certain that they will become immediate charges on the community.

The new Industrial Building has added more opportunities for men to work and has provided more possibilities of learning trades. There are about one hundred men employed daily.

WOMEN

Unemployment has not been a large cause of the admission of women to the State Infirmary. A certain number of middle-aged and older women have always been admitted for the winter months, but there has been no increase during the depression. Women seem to find a place somehow to earn at least their board and room and there is no such great problem as with the men. They make themselves useful in many home situations, whereas unattached men always feel "in the way" and useless. Those who have come because of acute illness have had to remain much longer after recovery because no work could be found for them. This has been especially unfortunate for the young woman with a baby. Rather than board the baby apart from the mother, we have kept the mother at the Infirmary through the nursing period, thus assuring the babies of the best physical start and giving the mothers the chance to care for their own children.

A larger number of married women have been admitted for confinement than usual, due very definitely to the unemployment of their husbands. The new Maternity Building, with its complete and attractive equipment, has been a happy refuge for them.

Chronic disease is the outstanding cause of all admissions. Fifty-one (51) per cent of the 397 women patients over twenty-one years of age admitted during the year have chronic diseases, not in all cases incurable, and all need many months of treatment. Tuberculosis, heart conditions, venereal infections, arteriosclerosis and cancer present the greatest number. Forty-one (41) per cent of the admissions were maternity cases, or convalescent from maternity, often with the complication of venereal disease. Seven (7) per cent were acute, remaining only a short time in the hospital.

To the social worker people are always interesting and absorbing, for each one has a real adventure, some thrilling, others drab and dull, yet all with some crisis of joy, sorrow or tragedy. The work of changing lives is challenging, but it incurs serious responsibility which one accepts with great humility.

Mrs. Jones was first known to the social service agencies in 1921, when she went to a maternity home for unmarried mothers. She was then twenty-one years old, rather pretty but irresponsible. She had a fairly good home in a small town and had gone two years to high school. She was of "dull normal" mentality and had an intelligent quotient of 88. She had worked as a domestic, as a saleslady and a clerk. After the baby was born she returned to her family and six months later she married a man of poor reputation in the town. She had six more children. In 1928 the family began to receive aid from the board of public welfare and shortly after that the husband deserted. Two years later Mrs. Jones gave birth to illegitimate twins at the State Infirmary. The seven children were committed as neglected to the Division of Child Guardianship. The alleged father of the twins, a married man, was prosecuted and ordered to pay a small amount for the support of the children. The mother remained at the Infirmary ten months. It was impossible to find work for her with the twins, and therefore one child had to go to the Division of Child Guardianship and the mother earned enough to board the other child.

This case is reviewed to show the excessive cost to society of eight homeless children whose lives are likely to be full of conflicts and maladjustments. The cost to the state has been great and will continue until the children reach self-support or the age of twenty-one. All the tragedy to this home and children might have been avoided if there could have been more careful supervision and case work after the mother had had her first illegitimate child.

Two hundred eleven (211) women and girls were treated for venereal disease, 100 had syphilis and 111 had gonorrheal infection. One hundred twenty-three (123) women were admitted because of illegitimate pregnancy. Of the 48 first

offenders, 40 came for confinement and 8 with their babies for convalescence. Of the 48 having the second illegitimate child, 31 came for confinement and 17 with their babies for convalescence. Of the 11 coming for a third illegitimate child, 10 came for confinement and 1 for convalescence. Sixteen (16) women were married but illegitimately pregnant. Twenty-four (24) married women came for legitimate confinement and 5 women with 6 children for convalescence.

There were 72 women and girls admitted from institutions for illegitimate confinement — 24 women from the Reformatory for Women, 36 from the State Industrial School for Girls, 15 from the state schools for the feeble-minded and 7 from the Department for Defective Delinquents at Bridgewater.

CHILDREN

On December 1, 1932, there were at the State Infirmary 236 children, of whom 78 were between fifteen and twenty-one years of age and 158 were under fifteen years of age.

The older group of 78 may be classified as follows: Seventeen (17) were pregnant; 11 had syphilis; 6 had gonorrhea; 8 had tuberculosis; 7 had chronic diseases; 9 were feeble-minded; 5 had miscellaneous minor ailments, and 15 were physically fit and awaiting placement in the community.

The younger group of 158 may be classified as follows: Fifty-three (53) were feeble-minded; 1 was diabetic; 1 had congenital syphilis; 1 had gonorrheal infection; 4 had minor ailments; 98 infants and children were with their mothers, 70 of whom were well and ready for discharge but whose mothers were under treatment or awaiting social disposition.

Of the whole number, 60 were wards of the Division of Child Guardianship, 44 children under fifteen and 16 over fifteen years, and 21 were girls from the State Industrial School for Girls.

The number of children and young people was almost the same as last year, and it is not expected that there will be a great decrease until the Department of Mental Diseases enlarges its provision for nursery children, who are at present being cared for in our Children's Hospital.

SUPERVISION AND PLACEMENT

As employment has been very difficult to obtain during the entire year, many women and girls have had to wait weeks at the temporary homes and then take rather inferior positions with low wages, sometimes with only board. Many wage homes have had to reduce wages and it seemed better to urge the women to stay on rather than change for uncertain benefits. It has been necessary to board more children apart from their mothers than usual, because the "mother with baby" positions have been so difficult to find. There were 98 replacements and 195 visits to hospitals.

APPLICATIONS

Apart from the transients who apply directly to the office for assistance, there is a large group of women who need advice and assistance before and after confinement. Insofar as possible, plans are made with maternity homes, thus preventing admission to the Infirmary. Placement and supervision are required after recovery. There is also a small number of young women beyond the age of assistance from a child welfare agency who need advice and supervision. A very definite service could be given to the wards of the Department who reach the age of twenty-one years and still need a counsellor if a routine transfer could be made for those who are homeless and without family ties.

For example, Eva was committed as neglected, with her brother and sister, to the Division of Child Guardianship when she was ten years old. The three children grew up together in a good foster home. The brother was bright, and after high school soon earned his own living and married. The younger girl did well at school and is still under care. Eva had special teachers, was in special classes, and finally went to work in a small hospital as a ward maid, under good supervision. After seven years she wanted a change and went to her brother's home. She was then twenty-four years of age and had saved nearly \$400. She was unadjustable to home life and was not satisfactory at house work. She spent her savings easily and foolishly. Her brother's home was broken because of his serious illness and she

was adrift. After a year of discouragement, she returned to her former visitor, who referred Eva for placement. It was soon evident that she was mentally disturbed and after laborious efforts she was taken to the Psychopathic Hospital where she was committed to a state hospital. It is noticeable that as soon as supervision and family interest ceased, Eva began to deteriorate mentally and physically. Fortunately, supervision prevented greater disaster.

Another girl, now twenty-three years old, an honor graduate from the Division of Child Guardianship, asked for a friend and was referred to a visitor in that Division. She was an illegitimate child and had never had any real family other than foster folks. She was bright, pretty, full of life and had normal interests. She tired of housework after six or seven years and several positions in stores, as a waitress or a clerk, were found for her, but few friends. She wanted to skate and dance, to have friends and good times. In the winter she spent her evenings skating at the Arena and in the summer she did a great deal of swimming. She met boys in unconventional ways, but in spite of looking gay and loving good times she was well controlled. Finally, at work, she met the right man and he introduced her to his relatives and friends. Against great odds of homelessness and loneliness, she married and made her own home. The friendly contact with the visitor, after her legal discharge from the care of the Division of Child Guardianship, did much to help this girl adjust herself.

TRANSIENTS

Social agencies, public and private, have many homeless men and wandering boys who appeal to them for assistance, and it has become an accepted policy to return these transients to their own homes, relatives, or places of legal residence whenever possible. This requires verification of the transient's story and letters and telegrams to be exchanged that he will be received, either by relatives or public authorities, upon arrival. There is no passing on to other communities merely to get rid of the undesirables or to avoid financial responsibility. Interim relief is given in the temporary homes until the investigation is complete. When word is received that the transient will be received, the transportation is provided by this Department and necessary telegrams sent along the route for the Travelers Aid Societies to meet the person.

The reasons for leaving home are usually the same, lack of work and the burden on a household where the women and children need the scanty provisions available. The hope that there is a job somewhere along the lines urges them on to walk, to ride and to hop freights from nearly every state in the Union to Boston. In summer the adventure has its pleasures, although hot and tiresome, but in winter, they beg for rest and shelter, frozen, sick and hungry. They are obliged to keep on moving to avoid arrest because one is not wanted anywhere when he is a stranger without money for food and shelter.

The group of boys between fifteen and twenty years of age numbers 53. They have all been returned to their homes and a social agency in the home town has been asked to interest itself. The Travelers Aid Society, which presumably gets the young people, gives the number as 209 for 1932, so the problem in Boston is not as alarming as it is in other parts of the country. The few who have no homes or legal residence have been boarded and cared for by the private social agencies, who will help to establish them permanently.

A few women come, hoping that Massachusetts will give work, as it has in other years. Sometimes families come who find relief in the home state so meagre that the road could be no worse. Relatives often urge them to come, only for the travelers to find resources limited and no work available.

Applications for Transportation

<i>Total Number of Applications:</i>		251 (195 men; 56 women)

COOPERATING AGENCIES

This Subdivision is very dependent on the willing and helpful cooperation of private and other public agencies in the State. The Family Welfare Societies and the agents of the Society for the Prevention of Cruelty to Children throughout the State kindly make investigations, thus saving long and expensive trips for our visitors. In Boston, the Travelers Aid Society is invaluable in helping our clients at trains and making investigations of the many transients which would otherwise come to the staff. The Industrial Aid Society has accepted for placement and friendly service many young men who leave the Infirmary. The Salvation Army and the Boston Industrial Home are very generous in giving our men free lodgings while looking for work.

The City Temporary Home for Women, whose superintendent is wise and understanding, is a refuge for the mothers with babies every day in the year. Too much appreciation cannot be given to this particular institution. The Rutland Corner House supplies the same kind of generous hospitality for younger women out of work.

The boards of public welfare, who are constantly asking for admission of patients to the State Infirmary and whom it is necessary to refuse because of our overcrowded wards, have been particularly helpful in making other, and even better plans, for the care of their chronic sick persons. Visitors of the Boston Overseers of the Public Welfare, who are often asked to give special attention to certain cases, always give much thoughtful consideration to such requests, regardless of the overwhelming demands upon them.

The patients at the Infirmary appreciate the kindness of the group of students from the Cambridge Episcopal Theological School and would wish to express their thanks for the many friendly visits, the thoughtful services throughout the year and the Christmas Party entertainment. Such a touch with the outside world stirs interest and recalls forgotten memories which kindle the imagination and lighten pain.

To the Commissioner and the Director of the Division we are grateful for their ever-ready response and interest in our efforts. To Dr. John H. Nichols and the staff of the State Infirmary we are always thankful for the many courtesies and friendly understanding of common problems.

Bureau of Old Age Assistance

FRANCIS BARDWELL, *Superintendent*

With the exception of a definite policy in the matter of insurance carried upon the life of a beneficiary under the Old Age Assistance Law, the original policies governing the law as approved by the Commissioner and the Advisory Board remain in force. These policies were published in the last annual report of the Department. The policy relative to insurance is as follows:

1. No applicant will be considered who is carrying life insurance in an amount over \$1,000, except group insurance where the premium is less than fifty cents a week.

2. No allowance in excess of fifty cents a week to cover insurance shall be allowed in the budget of any applicant.

3. No insurance may be continued by the applicant unless the estate of the applicant is the beneficiary, except in the case of an aged couple, in which case, after funeral expenses and cost of last illness have been deducted, the residue shall accrue to the surviving spouse.

4. Any insurance on the life of an applicant, premiums on which have been paid by a person other than the insured for a period of five years or more may be continued under the same arrangements. But, absolute evidence must be produced that such premiums have been paid by the person other than the insured and endeavor must be made to have such person guarantee funeral expenses and cost of last illness.

5. If the cash surrender value is in excess of \$500, it may be required to be taken, or if it is considered more advisable a paid-up policy may be taken payable to the estate of the applicant.

The main point emphasized in this policy is the fact that the Department is interested in the beneficiary and is insisting, in so far as possible, that the payments shall accrue to the beneficiary's estate so that from such proceeds a proper burial be given to the deceased, and if the amount received is in excess of this need such funds can be used to defray the expenses of the last illness and for other legal expenses. It is recognized that there is a certain sentimental value in the possession of a life insurance policy in which the individual's savings have been invested. But in justice to the taxpayer, the budgetary allowance for carrying insurance should not be excessive. Many policies carry a cash surrender or paid-up policy feature.

As of November 30, 1931, the Department had enrolled 8,376 active cases under the law. At the close of the state fiscal year, November 30, 1932, there were 16,641 active cases. A table showing the gradual growth by months is given below:

TOTAL ACTIVE CASES		NEW CASES		CASES CLOSED	
1931		1931		1931	
Dec. 1	8,376	Nov.	1,450	Nov.	113
		Dec.	1,622	Dec.	147
1932		1932		1932	
Jan. 1	9,851	Jan.	1,668	Jan.	156
Feb. 1	11,363	Feb.	1,013	Feb.	201

Oct. 1	16,493	Oct.	467	Oct.	319
Nov. 1	16,641	Nov.	508	Nov.	347
Dec. 1	16,802				

Pt. I.

The average weekly cost per person as of November 30, 1932, was \$5.93; but, in some cases fuel and medical attendance are allowed in excess of the budget. It was found that a budgetary allowance for the two latter items was not always satisfactory because of the fact that some beneficiaries found it impossible to maintain the necessary reserve for such purposes and in consequence faced cold weather and illness without the necessary cash accumulations. In such cases in order to prevent privation, fuel and medical needs were provided for outside of the budgetary allowance. The Department and local bureaus have come to realize that many of the aged beneficiaries are somewhat irresponsible, and unable to look ahead in planning their needs, and therefore for their comfort and protection special allotments for fuel and medical care were deemed necessary.

The methods of granting relief under the law are founded on social service procedure. Allotments vary in different communities and in all cases the standard of living of the community has to be considered before an allotment is made. The smallest allowances are granted to those living with sons or daughters or other relatives who are desirous of caring for the beneficiary but whose financial condition will not permit full support. The detached person living alone must be allowed more money than one boarded in the home of relatives, and the most expensive cases are those needing nursing care or hospitalization who in consequence have to be placed in boarding homes. In these latter cases, the homes licensed by the Department are used as far as possible.

Thus it will be seen that the weekly expense per person varies from \$2.00, in which cases the old age assistance supplements aid given by relatives, societies and others, up to \$15.00 in which cases it is full payment for care and hospitalization for invalids and chronic cases.

Because the legal procedure under this act is based on the general laws of settlement and relief, a person is cared for by the town of residence and the matter of the beneficiary's removal to another town has presented difficulties. An attempt has been made to inform beneficiaries and local boards to cooperate in such contemplated removals so that the allotment will not cease. To bridge the period of removal and adjustment payments by the town of prior residence for three weeks after such removal have been approved. In many instances this is not enough, as some towns resent new arrivals because it disturbs closely figured annual budgets. Many of the old people are unreasonable in this matter and move regardless of future adjustments only to find themselves after three weeks without their customary allotment. Like the workings of all new laws it will take a long period to adjust such conditions and because of the very close budgeting of most municipalities in these times it may be some time before the law will function smoothly in this particular.

Under Acts of 1931, ch. 398, sect. 8, the total head tax for the years 1931 and 1932 was used to reimburse cities and towns in full for money expended for the support of individuals under the Old Age Assistance Law for the first ten months of its operation. In compliance with this, bills for full support to individuals from July 1, 1931, to April 30, 1932, were rendered and paid from the proceeds of two years' head tax. Under this settlement, the sum of \$2,036,180.00 was disbursed to cities and towns for the full support of all beneficiaries under the law.

Notices of this contemplated action were sent to all cities and towns and the visitors of the Department assigned to cities and towns to assist the local bureaus in proving age, citizenship and twenty years' residence so that the audit and approval of the bills might be assured. The great majority of such cases were satisfactorily checked, but some cases were found where it was impossible to prove the fundamental requirements.

Much has been done by local boards and by the state visitors in the matter of requiring assistance from children and grandchildren. Some children have felt that the passage of the law under which the state contributes relieved them of all obligation. Many others who have always supported aged parents would be willing to continue had they not either lost their positions or had pay reductions of such an amount as to make any attempt to assist their parents impossible. The child or grandchild who is financially able to assist must be made to do so, and many an investigation of an aged person's eligibility has been seriously delayed because of the refusal of children to cooperate. The law definitely states that the

assistance is for aged deserving citizens in need of support. The legal and moral obligation for such support lies first with children and grandchildren and if they are financially able to support the need of public assistance is not proven. Many of the local bureaus are making thorough investigations of this matter, but in some cases the Department finds it necessary to interview children and children's employers.

The law allows a \$1,500 equity in real estate owned by the applicant and used for a home. The real estate must be used by the applicant for a home. In considering an equity in mortgaged property, a co-operative bank mortgage, wherein payments on principal are regularly made, cannot be considered because public money cannot be used for the purpose of assisting an individual in acquiring real estate. The determination of the amount of the equity must be based on the assessed value of the property. It is not the intention to construe the phrase "used for a home" to cover apartment house property or the business of maintaining a lodging house. The real intention is to save for the beneficiary a little home in which to spend the remainder of life.

The year has brought out many complications relative to both real and personal property; for instance, real estate deeded shortly before application to a relative, either for life care or to repay a debt, and in the case of personal property, the ever-present joint bank account which may or may not be a share-alike proposition. Such complications are the subject for much careful investigation and often prove the contention that the applicant has been led to follow unsound advice of relatives or others.

The basic matters of investigation are the three fundamentals, the person's actual need, the ability of children to provide, and the adjustment of real and personal property and insurance. Under the scope of visitation and social service come housing, need of care, need of medical attention, solicitude for decency in living conditions, and attention to reasonable comfort. As small as are the allotments granted, still from time to time there appear persons who are willing to exploit the aged beneficiary. Only intelligent and kindly visitation can discover and stop such exploitation.

Aged beneficiaries can live as they elect under the law provided a reasonable standard of cleanliness in living conditions is maintained. The manner in which these aged people desire to live is not always what we should choose. Some are more happy living in the congested parts of the big cities, occupying meagrely furnished rooms up several flights of stairs, here they have always lived and here assisted by this law they prefer to reside; some occupy little dwellings in the country living alone, remote from neighbors. In many instances visitors suggest a change only to be met with a flat refusal to abandon the old home. The primary object of this law is to secure the comfort and happiness of the beneficiary. If the aged persons are able to care for themselves they should live, as far as possible, where they will be the happiest.

At this writing eighteen states have adopted some form of Old Age Assistance. In several other states bills are before legislatures which are at present in session. All existing laws differ, but the New York and Massachusetts laws have most features in common. The principle of all state laws is the same; specific assistance to a specific type of aged persons who are dependent.

STATISTICS

On December 1, 1931, there were 8,285 active cases receiving Old Age Assistance. During the year 11,443 new cases were aided and 2,956 cases closed so that there were 16,772 cases receiving Old Age Assistance at the close of the fiscal year, November 30, 1932.

The cases were classified as follows:

	NEW CASES		REOPENED CASES		Total
	Settled	Unsettled	Settled	Unsettled	
Male . . .	4,815	302	301	26	5,444
Female . . .	5,303	394	273	29	5,999

DIVISION OF CHILD GUARDIANSHIP

MISS WINIFRED A. KENERAN, *Director*

CHILDREN IN CARE AND CUSTODY OF THE DIVISION

Children under the care of the Division of Child Guardianship on December 1, 1931, numbered 6,739, classified as follows: delinquent, 200; wayward, 9; neglected, 3,259, and dependent, 3,271.

During the fiscal year, closing November 30, 1932, 1,252 children were received into custody, as follows: delinquent, 133; wayward, 6; neglected, 630, and dependent, 483.

The number of individuals received is a decrease of 15, or 1 per cent, less than the actual number received the previous year.

Of the delinquent children committed, 90 were committed to us on temporary mittimi pending further court orders.

Six hundred thirty (630) neglected children were committed during the year, an increase of 6 per cent over the number in the same class last year. Two hundred ninety-three (293) were permanently committed and 337 children were sent to us during the continuance of their cases in the courts. In 101 cases, commitments were later made permanent, 162 children were bailed or discharged to court, while the cases of 74 children were pending at the close of the year.

The number of dependent children received, 483, is 12 per cent less than the number received in the same manner last year.

Only 6 children were committed to us during the year as wayward, 4 boys and 2 girls.

Special effort was made during the year to return to their parents as many children as could possibly be released consistent with good social work. We were able to discharge from custody for various reasons, 1,138 children. The number received, however, is always larger than the number discharged, consequently the total number of children receiving care shows an increase each year. Seven thousand nine hundred ninety-one (7,991) is the total number of children under care

this year. This is an increase over the number for the previous year (7,730) of 261 children or slightly more than $3\frac{1}{2}$ per cent, while the increase over the number for 1929 (7,402) is 589 or 8 per cent. The 1,138 children discharged were classified as follows: delinquent, 144; wayward, 5; neglected, 591, and dependent 398.

Six thousand eight hundred fifty-three (6,853)¹ children remained in our care on December 1, 1932: delinquent, 189; wayward, 10; neglected, 3,298, and dependent, 3,356. Of this number 5,049, or almost 74 per cent, are fully supported by the Commonwealth. Last year on the same date, December 1st, only 71.19 per cent of the number under care were placed on similar terms. Two hundred eighty (280) children are partially supported by the Commonwealth, while 628 are placed without expense. One hundred ninety-four (194) of this last number are on parole with their parents under the visitation and supervision of our visitors, and 65 of the remainder are placed on similar terms with relatives other than their parents. Five hundred fifty-six (556) — 240 boys and 316 girls — are self-supporting. Two hundred eighty (280) are receiving hospital treatment and the whereabouts of 51 boys and 9 girls are unknown.

It has been very difficult this year to find employment for our older boys and girls even on farms or at housework where formerly the demand was great. This year only 108 boys are employed on farms as against 183 so placed last year. The other boys who are self-supporting are employed in stores and factories or are engaged in the ordinary types of work open to unskilled workers. Twenty-four (24) boys are in the United States service. Two hundred nine (209) of the older girls are placed in private families where they receive wages for assistance in the household duties of the family; 16 are working in mills or factories; 11 in offices; 9 in stores; 15 are taking nurses' training courses, while a number of others are employed as waitresses, attendants in hospitals, cooks, stock-girls, etc. Eleven (11) girls and 3 boys are married.

Nine hundred eighty-six (986) of the boys over twelve years of age are attending school, as follows: elementary, 508; junior high school, 203; special classes, 45; sight-saving class, 1; high school, 195; trade school, 18; college, 2; business college, 4; evening school, 7; continuation school, 3. Nine hundred fifty-four (954) girls over 12 years of age are attending school. Fifty (50) of this number are earning small wages for housework done outside of school hours. Three hundred forty-three (343) girls attend elementary school; special classes, 34; sight-saving class, 1; junior high school, 240; high school, 290; normal school, 3; business college, 9; continuation school, 2; trade school, 8; nurses' training school, 15; evening school, 6; college, 2, and school of beauty culture, 1.

Four (4) boys completed the course offered at the Wayside Inn Boys School last June but because of the acute economic conditions they are employed at the Wayside Inn until prospects for their employment at Detroit are brighter. There are now enrolled at the Wayside Inn Boys School, 36 boys.

Only 89 of the 6,853 children in care on December 1, 1932, were born outside of the United States. Fifty-six (56) of these were born in Canada, 12 in Italy, 7 in England, 6 in Poland, and 1 each in Russia, Greece, Finland, Portugal, China, Armenia, Scotland and Mexico.

We have in custody 392 colored children

Three hundred three (303) children are full orphans, 1,142 are motherless, and the fathers of 513 children are deceased.

One thousand eight hundred thirty-two (1,832) of the children under care on December 1, 1932, are illegitimate. This is almost 27 per cent of the whole number under care.

For the tables showing the details of the work done during the year by this division, see pages 32-37.

¹ In addition to these 6,853 children, the Department had under its supervision and visitation November 30, 1932, 446 boys at the Lyman School for Boys; 290 girls at the Industrial School for Girls; 323 boys at the Industrial School for Boys; 2,679 boys and 675 girls in the custody of the Trustees of the Massachusetts Training Schools, outside the schools; 152 boys and 157 girls, patients at the Massachusetts Hospital School; and 250 children, patients at the State Infirmary, who are either young infants with their mothers, or else under hospital treatment, making a total of 11,825 children in the care and custody or under the supervision of the department. There were also 1,641 children supported at the expense of cities and towns who were subject to the department's visitation, reported upon at page 171.

INFANTS UNDER CARE

The number of children under three years of age on December 1, 1931, was 554. Two hundred ninety-eight (298) were received, making the total number supported during the year, 852. This number includes 2 foundlings who were committed under the provisions of General Laws, ch. 119, sect. 22.

Seventy-eight (78) were discharged from custody and 271 were transferred to the subdivision for older children, leaving 503 children in this group at the close of the year.

Mortality Rate in Detail

	Under Care	Died	Rate
Birth to one year	102	5	4.90%
One year to two years . . .	188	5	2.65%
Two years to three years . .	562	2	.35%
	852	12	1.40%

1930	195	8	4.1	802	17	2.1
1931	92	3	3.3	802	8	0.99
1932	102	5	4.9	852	12	1.4

THE MENTALLY DEFICIENT GROUP

This subdivision deals with all mentally deficient children who are referred from the entire number in the care and custody of the Division of Child Guardianship.

Active cases on December 1, 1931	307
Cases referred during the year 1932	145
Cases discharged during the year 1932	185
Active cases on December 1, 1932	267

These cases are divided into three classifications:

A. *Boarded Children* — of which there are 140 placed in 43 foster homes located in various sections of the state. A special type of home is used for the mentally deficient child, the foster mother being selected because of her high level of intelligence as well as her ability to maintain a high standard of home-making.

The majority of these children attend special classes in the public schools and are closely supervised, so that the maladjusted and institutional types are recognized, and application is made for their admission to the state schools for the feeble-minded.

B. *Wage-earning Group* — Twenty-two (22) in number, ranging in age from sixteen to twenty-one years, earning from \$2 to \$10 per week. Through the co-operation of employer and social worker a plan is made whereby the girl or boy has an allowance each week; the remainder of the money earned is used for necessary clothing and other things in an amount which does not prevent a monthly deposit being made on his bank account. The types of employment are housework and factory work. The amount of money on deposit, earned by this group of 22 minors, is \$2,955.63. When these mentally handicapped children reach the age of twenty-one years the bank book is given to the person or organization who will have further supervision of them.

C. *Institutions — Monson State Hospital*—There are 30 children here who are being treated for epilepsy. The social worker visits periodically, and investigates homes at the request of the superintendent of the hospital when he considers a child able to be permitted to leave the hospital on a visit. When a child is on a visit to his home, a worker visits and is responsible for his return to the hospital at the date suggested by the physician.

Just prior to the child reaching twenty-one years of age, a conference with the superintendent may result in his recommendation that a permanent commitment is advisable, and this is arranged by the social worker.

Hospital Cottages for Children, Baldwinville — There are 13 children placed at this institution, all of them having severe physical as well as mental handicaps. They are all on the waiting list for admission to the state schools for feeble-minded, and meanwhile are not placeable in the community.

State Infirmary — Forty-five (45) children are placed at the Infirmary, and all are awaiting admission to the state schools. These children are all very low-grade mentally and in need of medical treatment for venereal disease, paralysis, skin infections, etc. After a period of treatment a few of these children can be placed in foster homes. During the past year 7 of this type were successfully placed. Twenty-seven (27) applications were made to two state schools for the admission of these children during the past year.

Five (5) children of this mentally deficient group died during the year; and 177

were discharged from the custody of the department, as follows: to state schools for the feeble-minded, 144; to parents, 6; to Industrial School for Girls, 2; to Lyman School for Boys, 2; to court, 3; to Department of Mental Diseases, 5; to Division of Aid and Relief, 5; to relatives or friends, 4; to the normal group, 6.

SUBDIVISION OF INVESTIGATION

It is hard to explain the statistics of this subdivision this year. The number of applications has decreased from 1,572 in 1931 to 1,358 this year, and the number of dependent children received under General Laws, sect. 38, ch. 119 decreased from 407 last year to 339 this year. The number of dependent children committed under section 22 is the same for both years — 143.

The vast increase of home relief during this period of unemployment must supply the reason for the decrease in the number of dependent children.

There have been during the year but 2 foundlings, the smallest number since statistics have been kept.

One hundred seventeen (117) of the 483 dependent children received were illegitimate. As always, emphasis is placed on supervision of the mothers in all illegitimacy cases whether the children are received or not. A large proportion of the mothers of children received are under very definite supervision.

The Social Service Department of the Division of Aid and Relief referred 32 cases. Seventeen (17) mothers are inmates of the Industrial School for Girls at Lancaster; 2 are in the care of the Department of Correction, and 4 are wards of this division.

Forty-four (44) of the legitimate children received were over twelve years. Sixteen (16) of them were members of family groups representing 10 families. In 7 families the mother was dead, in 1 both parents, and in the other 2 the mother was an inmate of a hospital for the insane.

Nine (9) of the remaining 28 are full orphans for whom relatives cannot continue to provide and who, because of the difficulty in finding employment, must be cared for. The youngest in this group is a boy of fourteen years.

In 2 other cases the mother is dead and the children, both girls over fifteen, had become rather serious problems, too difficult for their fathers. In 3 cases the mother is a patient at an insane hospital and the father is dead. One (1) girl is the child of a blind feeble-minded mother whose husband deserted, and the girl was beyond the control of her mother. This mother had two illegitimate children but the court would not entertain a neglect complaint.

Five (5) broken families with low grade parents account for other cases.

The remaining 8 were all received for special treatment. Six (6) were girls, the youngest twelve and the oldest seventeen years. Two (2) were received pregnant, 1 much deformed and 1 was very low grade. Three (3) others were crippled, 1 with a tubercular hip, 1 as the result of infantile paralysis and 1 with congenital spine, probably accentuated by tuberculosis. This child is definitely feeble-minded. The other girl came for treatment for venereal disease, to be discharged when cured.

The two boys are both low grade feeble-minded and one has spastic paralysis. Neither could be placed in foster homes.

For homeless older boys who come to us in desperation because of their failure to find employment, we have in several instances made use of the new work done by the Morgan Memorial.

The law relative to the giving of bond to this department by agencies or private individuals who place in the Commonwealth children from outside the state is working very satisfactorily. Upon application from an accredited agency a blanket bond is arranged. Private cases are carefully investigated and each decision made on its own merits.

The following are the Statistics of the Subdivision of Investigation:

Applications pending December 1, 1931	576
Applications received December 1, 1931, to November 30, 1932 (involving 150 re-applications)	1,358

ADOPTIONS OF OUR WARDS

During the year ending November 30, 1932, 26 adoption decrees were entered in the following Probate Courts:

Counties:

Barnstable	1	Norfolk	1
Bristol	3	Plymouth	5
Essex	5	Suffolk	1
Hampshire	1	Worcester	1
Middlesex	8		

In only two cases has there been any contest on the part of the parents or relatives in regard to the adoption of the child. In one case the mother, who had deserted the child while it was an infant, came in to oppose the adoption even though the child had grown to be a young lady nineteen years of age. However, the mother's objection in this case was largely sentimental and the girl herself would have nothing to do with the mother.

In the other case the mother had failed to do anything for the child, who was therefore committed to the Department as neglected; and then, when a highly satisfactory home had been found for the child, the mother appeared to contest the adoption. The court decided in favor of the petitioners and afterwards the mother herself said she was entirely satisfied and knew that the petitioners would make the child happier and give her a better home than she could.

Homes investigated:	
Approved	38
Disapproved	26
	<hr/>
	64

Twenty-nine (29) children have been placed for adoption during the year. Twenty-six (26) have been adopted, 7 boys and 19 girls. The oldest child adopted was a girl nineteen years old, and the youngest a girl two and a half years old.

There are now on trial for adoption 50 children.

Although the past year has been one of economic stress for practically everybody, the usual number of applications for children for adoption has been received. The desire for a child in a childless home, or the fact that the foster parents have become attached to a child placed at board in their home, has influenced these applicants to offer to share what they have with the less fortunate child.

The homes of many applicants must be disapproved for one reason or another but there are always approved homes waiting for the bright, attractive, healthy child. It seems to be an acknowledged fact that the good middle-class home is best suited to our children.

Five of the children adopted this year were taken by relatives.

INVESTIGATION OF PETITIONS FOR ADOPTION

A year ago the subdivision of adoptions filed its first report for a period of a little more than five months. At that time the group of workers was struggling to become acquainted with the many problems which arose in the new undertaking. The present report covers an entire year and during that period considerable knowledge has been gained so that we can speak with more assurance.

During the seventeen months which have elapsed since the formation of this group, the standards of work in the field of adoption have been considerably raised. Since the passage of the law forbidding the advertising of a child for adoption, the handing over of children at railroad stations or street corners has been reduced to a minimum. Now there is a desire to seek out a charitable institution to sponsor the adoption.

With the large number of persons seeking children, there is no need of placing babies in undesirable homes. The subdivision of adoptions is always ready to aid persons who seek help in regard to children to be adopted. Some children, because of their background, are not suitable for adoption. This is not merely our deduction after seventeen months of investigation but it has been the opinion of all persons who for years have been doing work of this nature. Doctors who have specialized in mental disorders have much evidence of this fact. Social workers learn in a short time that each case is an individual problem and must be treated as such. To the general public, however, such knowledge is new. It is amazing to find so many well meaning persons to whom the whole problem of adoption is simply a matter of finding a baby who needs a home, and a married couple who want a child. Babies appeal to the maternal instinct in women but babies grow, and every thoughtful parent should consider what his baby will be in fifteen or twenty years. When one considers the care which is exercised in placing a child in a boarding home from which he may be removed at any time, it is easy to understand the need of proper adjustment in placing a child for adoption and for life.

The importance of a child's remaining in the home of the petitioners for six

months before an adoption is granted was stressed last year. Again we urge that this section of the law be followed. There is no need for undue haste, and all advantages are to be gained by moving slowly. It is amazing to see how people become obsessed with fear that they will lose the baby who is placed in their home. If they would judge their situation sanely they could see that the mother of an illegitimate child has only one wish, namely to get rid of her burden. During the past year we have seen a gratifying change in the attitude of the prospective parents towards the members of our division. The attorneys and their clients are beginning to realize that as officials and as individuals we have only one purpose, and that is to try to improve adoptions.

One type of adoption encountered occasionally causes us considerable worry because it seems as if the adoption is sought to cancel a board bill. We cite the following two cases to illustrate:

1. Because she divorced her husband, Mrs. A is forced to go to work and to board her boy in a private home. Mrs. A loses her work and she finds herself indebted for a large sum of money. The boarding parents have grown fond of the boy and they suggest that the mother allow them to adopt her son. Realizing that the boarding parents have been kind to her and her child, and knowing she will never be able to pay the board bill, the mother, rather than disappoint her friends, agrees to the separation. And so a nine-year-old boy is separated from a good mother and adopted by parents sixty-four years of age who have eight children and eight grandchildren.

2. A young married couple were obliged to work and boarded their baby. Due to the depression they lost their work and soon found a large board bill outstanding. Unable to secure her money, the boarding woman petitioned to adopt the baby. This boarding woman is a widow with seven children and twenty-two grandchildren.

The second adoption we were able to prevent.

Adoptions of children by single persons are always questionable. Some may be justified, but when the child is legitimate there seems to be no reason for making him appear as the offspring of an unmarried man or an unmarried woman.

The Legislature of 1930 enacted a humane law whereby illegitimate children who have been adopted can have their birth certificate changed so that they are recorded as legitimate children of the parents by whom they have been adopted. In these days when a birth certificate is so often needed, a child is saved much humiliation. It might be stated here that the city and town clerks have been kind enough to change the birth certificates of persons adopted prior to the passage of this law.

In closing we would like to reassure adopting parents that the fear of losing the baby by waiting six months before petitioning the Probate Court is unfounded. In the 1,041 cases investigated by this subdivision, the number of mothers who have sought the return of their babies has been few. It is true that poor adoptions have been prevented, but bona fide parents have no need to fear. The experience of the Department of Public Welfare in adoptions for fifty years supports these conclusions.

LICENSED BOARDING HOMES FOR INFANTS

During the last official year 653 licenses to maintain boarding homes for infants were granted under the provisions of General Laws, chap. 119, sect. 2, in 109 cities and towns, in addition to the 592 licenses in force at the expiration of the previous year; 561 expired by the one-year limitation, 2 were revoked, and 563 licenses permitting the boarding of 1,156 infants in 108 cities and towns remained in force November 30, 1932. Forty-seven (47) applications were withdrawn and 14 were refused.

These represent the licensed homes, not only of infants under the supervision of the Commonwealth, but also of those under the age of two years placed out by parents and many private agencies.

The inspector of infant boarding homes made 194 visits during the year, supervising boarding homes and investigating complaints. One (1) child was removed under the provisions of General Laws, chap. 119, sect. 28. Five (5) nurses made 9,925 visits to infants placed in foster homes. This number includes 7,890 visits to our infant wards and 2,035 visits of inspection and investigation of licensed boarding homes and infants boarded privately.

Summary of Infants under Two Years of Age reported to the Department of Public Welfare from December 1, 1931, to November 30, 1932, under General Laws, Chap. 119, Sect. 6, which provides for the Protection of Infants and the Licensing and Regulating of Boarding Homes for them.

		106
Licenses in force Nov. 30, 1932 (in 93 cities and towns)		190
Corporations	126	
Physicians	19	
Nurses	29	
Boards of Public Welfare	5	
Other persons	11	
		190

The returns from the questionnaire mailed to each licensee shows 42,272 cases delivered in 190 hospitals; deaths of mothers, 236; deaths of babies, 1,328; stillbirths, 1,450.

Twelve (12) of the 190 hospitals reported eye infection. The licensee of each hospital is responsible for the use at every birth for the prevention of ophthalmia neonatorum of either the 1 per cent solution of nitrate of silver furnished by the Department of Public Health, or some similar preparation having the approval of the said Department.

Each licensee shall be responsible for the observance of chap. 111, sects. 110 and 111 of the General Laws, relative to diseases of the eyes.

Four (4) licenses to conduct homes for pregnant women were granted during the year.

Social Service for Crippled Children

MISS MARGARET MACDONALD, *Supervisor*

In December, 1931, the "Final Report of the Department of Public Welfare Relative to the Number and Care of Crippled Children" was published. During the progress of the survey, which the report covers, a law was enacted by the Massachusetts Legislature providing for a continuing survey of crippled children. This law was later amended by the Legislature under the Acts of 1933, chap. 159, sect. 46A, and now reads:

The school committee of every town shall annually ascertain, under regulations prescribed by the department and the commissioner of public welfare, the number of children of school age and resident therein who are physically handicapped. In any town where, at the beginning of any school year, there are five or more children so physically handicapped as to make attendance at a public school not feasible, and who are not otherwise provided for, the school committee shall, and in any town where there are less than five such children may, employ a teacher or teachers, on full or part time, who shall, with the approval in each case of the department and the said commissioner, offer instruction to said children in their homes or at such places and under such conditions as the committee may arrange.

The law thus amended now provides for the annual census of all physically handicapped children. The amendment was proposed by the Commissioner of Education in order to insure the benefits of the law to cardiac invalids among children and to other children suffering from physical handicaps which constitute a barrier to the normal pursuit of education in the regular public school classes.

From December 1, 1931, to November 30, 1932, with 189 towns reporting, information was received on 862 handicapped children. Five hundred ninety-seven (597) were crippled children and 265 were children having other handicaps

such as cardiac disorders, chronic medical conditions, epilepsy, deafness and blindness. Two hundred eighty-one (281) of the handicapped children reported were in the regular public schools. Sixty-one (61) of these had received home instruction during the previous school year but returned to school in the fall. Fifty-six (56) were being cared for in special schools for the handicapped, such as the Massachusetts Hospital School, Industrial School for Crippled and Deformed Children, schools for the deaf and the blind, private schools, institutions for the feeble-minded and general hospitals. Three hundred nine (309) physically handicapped children were approved for home instruction, and institutional care and training was recommended for 40 children.

One hundred seventy-six (176) children reported out of school and not recommended for home instruction were as follows: 85 were mentally unpromising; 12 were too ill to be taught; 6 were having private instruction; 8 who previously received instruction died during the year; 11 were to return to school in such a short time, home instruction was not thought necessary; 15 children, under treatment, were too young for school; 15 were over school age or working; 19 had moved; 1 was referred to the Division of Vocational Rehabilitation; 1 was on the waiting list for hospital care; hospital care was advised for 1, and transportation to school was recommended for 2 children.

Since the 1931 report a number of children who were included in the Annual Census of Handicapped Children, and others reported by private organizations or interested individuals, have been referred to hospitals or institutions for advice concerning appropriate plans for care and education. Five (5) of these children have been operated upon for the correction of orthopedic deformities, and 1 child is awaiting admission to a hospital for operative treatment. Another is being followed by the hospital, through its social service department, in the hope of being able to persuade an over-anxious mother that he has made a good recovery and should gradually be allowed to take up normal activities again. Two (2) were found to be hopelessly crippled and their parents were given advice concerning institutions where the children could be cared for, but the parents elected to care for them at home. Arrangements were made for free hospitalization of a seventeen-year-old boy but the plans were not carried out as he lacked the courage to go through with the proposed operation for the correction of a club-foot deformity.

Eight (8) children were referred to the Massachusetts Hospital School for admission. Six (6) of these children were accepted and have remained at the school for care and training. One (1) child was admitted but removed against advice before she could become properly adjusted to the school régime. It was thought best, in another case, to allow the child to remain at home and continue to attend the regular public school in which he was experiencing little difficulty. A private individual interested in an eighteen-year-old crippled girl appealed to us for assistance in arranging a high school education. The girl was a wheel-chair case who had not been able to attend school since she was taken ill in the fourth grade. She had continued to study at home and after a year of special tutoring it was thought that she was equipped to do high school work. The local school department, when approached, immediately co-operated by arranging a course of studies which allowed the girl to remain on one floor of the school building. They also provided transportation for her on stormy days. In good weather the girl's brothers, who are attending the same high school, wheel her to school in her chair.

Private organizations and individuals referred to us 19 other children, each presenting an individual problem to be solved. Five (5) of these were Massachusetts children in borderline towns who had previously been cared for in Rhode Island hospitals but were no longer under their care. They were brought to our attention through the Committee for Crippled Children of Providence, R. I. This experience places before us the possibility of co-operation between states, as similar organizations are established. By this co-operation, continuity of care and education for physically handicapped children would be insured, as they go from one state to another.

It has been our privilege during the past year to come in contact with nearly all the teachers engaged in the work of teaching children in their homes. Rarely have we met with a more earnest group of workers. Almost without exception they are intensely interested in their children and bring to their work an enthusiasm

and ingenuity refreshing to see. Many of them, realizing that treatment is often more important than education, are doing excellent social service work in directing certain of their children to hospitals and institutions for necessary medical attention.

A course of lectures on "Understanding the Crippled Child" was arranged for these teachers and others interested in the work of crippled children. It was given under the Division of University Extension with Miss Margaret MacDonald acting as course leader. The lectures were given by physicians prominent in the field of medicine and orthopedic surgery. Many of the teachers expressed their appreciation of the course and stated that it was of great help to them in their work.

TUITION OF CHILDREN UNDER THE CARE AND CONTROL OF THE DEPARTMENT

Under the operation of General Laws, chap. 76, sects. 7 to 10, inclusive, as amended by Statutes of 1921, chaps. 272 and 214, and Statutes of 1930, chap. 290, governing reimbursements by the Commonwealth for tuition and transportation of state wards in public schools, bills received from 190 cities and towns, for the tuition and transportation of 3,057 children, amounting to \$198,308.48 — viz., tuition, \$180,225.55; transportation, \$18,082.93 — were audited by the department and paid by the Treasurer of the Commonwealth during the year ending November 30, 1932. The location of the children was as follows:

DIVISION OF JUVENILE TRAINING

CHARLES M. DAVENPORT, *Director*ROBERT J. WATSON, *Executive Secretary*

(41 Mt. Vernon Street, Boston)

On November 30, 1932, the total number of children who were wards of the Trustees of the Massachusetts Training Schools was distributed as follows:

SCHOOLS	In the		Total
	Schools	On Parole	
Lyman School for Boys	446	1,510	1,956
Industrial School for Boys	323	1,178	1,501
Industrial School for Girls	290	678	968
	1,059	3,366	4,425

The total number in the schools on November 30, 1932, is 69 less than on November 30, 1931; the Industrial School for Boys shows an increase.

The Board of Trustees held 11 special meetings during the year in addition to 33 meetings of various committees. A total of 121 separate visits have been made to the three schools by members of the Board of Trustees during the year. In addition to these visits made by the trustees, the executive secretary of the Board has visited the three schools 43 times during the year.

Boys and girls may be paroled from the training schools at the discretion of the trustees. Applications for parole may be made, either in person or by letter, to the executive secretary of the trustees, who will see that they are acted upon if the boy or girl has been in the training school a reasonable length of time.

The average length of stay at the three schools was slightly longer in 1932 than in 1931.

AVERAGE LENGTH OF STAY

	1931	1932
Lyman School for Boys	12.23 mos.	12.84 mos.
Industrial School for Boys	7.8 mos.	8.04 mos.
Industrial School for Girls	17.13 mos.	18.63 mos.

Boys' Parole Branch

C. FREDERICK GILMORE, *Superintendent*

On November 30, 1932, there were 2,688 boys on parole in the care of this Department, 1,510 of whom were on parole from the Lyman School for Boys and 1,178 on parole from the Industrial School for Boys. This represents a net gain of 26 for the year as against a loss of 13 in the previous year.

From the Lyman School there were paroled to their own homes or to relatives, 455; paroled to others, 44; paroled to foster homes, at board, 138; a total of 637. From the Industrial School for Boys, there were paroled 547 boys, 474 to their own homes, or to relatives, and 73 to others.

The supervision of boys on parole in foster homes is most important. It is essential that every boy be placed in a foster home where he will do well. In many cases this means trying the boy in several foster homes before finding one best suited for him.

Boys paroled to foster homes are those who have no homes, those whose homes are too poor to be considered, and those whose homes, even though good, show lack of proper supervision.

With many parents receiving aid from the welfare departments, the demand for placing boys in foster homes has greatly increased during the past year, and many parents have requested us to place their boys in foster homes. So far as possible, boys have been placed in homes where their services have been accepted in lieu of payment for board.

The demand for clothing has increased noticeably. With the advent of the colder weather, hardly a day passed that some visitor did not have an appeal for clothing. Boys have come to the Department from many parts of the State feeling that work might be found in larger cities, and provision has had to be made for them. A feature that cannot well be passed over is that many young men who have been wards of this Department, but who are now well above the age of 21

years, have looked to us for assistance. Many of these men are married and have families of their own. Whenever possible, they have been assisted, and in some cases, work was found for them.

The Trustees granted honorable discharge to 44 boys on parole from the Lyman School for Boys and to 47 on parole from the Industrial School for Boys. Only those whose records were exceptional were recommended for honorable discharge.

Twenty-one thousand six hundred eight (21,608) visits were made during the year, 8,146 to boys on parole from the Industrial School for Boys and 13,462 to those on parole from the Lyman School for Boys. One thousand six hundred forty-two (1,642) home investigations were made, as well as 268 investigations of foster homes. To readjust boys, there were 790 relocations made.

Visitors in the city districts were called upon to aid boys in their care in procuring employment, as many seem to have only the slightest idea of how to obtain work. A total of 1,646 hours was devoted by the visitors to this seeking of employment for our wards.

The calls for assistance this year have exceeded those of any previous year. Many parents have stated that the family has subsisted on the earnings of our boys. Owing to financial conditions in the homes, there have been heavy withdrawals from the savings of our boys. Through our savings system, all wages of the boy in a wage home, in excess of necessary expenses, are placed to his credit in the savings bank, and kept to provide him with a working capital when he becomes of age. Only in case of great need may this money be withdrawn for the benefit of the boy or his family.

On November 30, 1932, this Department held 533 separate bank accounts for boys in its care, with total deposits amounting to \$19,555.67.

Girls' Parole Branch

MISS ALMEDA F. CREE, *Superintendent*

Nine hundred four (904) individual girls plus 58 babies were cared for during the year ending November 30, 1932, and on that date 678 girls were on parole. The average age was 18 years and 4 months. The ages of 477 girls were 18 years and over, 170 girls were between 16 and 18 years of age, 31 girls were under 16 years of age. The youngest girl was 10 years old.

The obstacles confronting our parole officers are many. Some of the most difficult ones, which are encountered from year to year in the work with girls on parole from the Industrial School, are the girls' abnormal mentality, unstable emotions, physical disabilities, and bad sex habits.

All but 24 girls were mentally examined before commitment, while at the Industrial School or while on parole. The diagnoses were:—normal, 116 girls; supernormal, 13 girls; dull normal, 259 girls; borderline, 139 girls; moron, 63 girls; feeble-minded, 49 girls; mentally deficient, 8 girls; conduct disorder, 6 girls; psychotic, 1 girl. These mental diagnoses give a better understanding of what might naturally be expected from such variations from normal mentality. It is the visitor, however, who makes the real test as to the ability of each individual girl to meet the temptations and discouragements of life in the community.

We review briefly the history of the girls committed to the Industrial School: girls whose mothers worked outside of the home, 27; girls whose parents were separated, 31; girls who had stepfathers, 20; girls who had stepmothers, 15; girls whose parents were dead, 4; girls whose mothers were dead, 22; girls whose fathers were dead, 30; girls who were adopted, 2; girls living in foster homes, 26; girls without homes, 7; girls who have immediate relatives in penal institutions, 20; girls who have alcoholic or immoral relatives living in the home, 84; girls who were illegitimate, 13; girls who admitted sex experience, 129; girls who had illegitimate children, 10; girls who were pregnant when committed, 16; girls who were married, 3; girls who had venereal disease, 54; girls who were supervised by other organizations, 84; girls who had been in other institutions, 31, and girls with previous court records, 53.

The work of the investigation of the heredity and environment of the girls committed to the Industrial School, and the recording of the histories of these girls, deserve mention because of the value of this work. It is important to know all the facts about a girl's heredity and environment that have contributed to her

delinquencies. These investigations have been made with tact and fair-mindedness and with as much thoroughness as time would permit. The investigator made thirteen visits to the Industrial School. She took the histories of 152 girls and investigated 151 homes. Much time is consumed in these investigations. It is necessary to interview in each case at least both parents, who may be living in different parts of the state, the school principal, the probation officer, the police officer, and the complainant. Many letters are sent out on each case to sources of information that time will not permit her to interview. When all information is collected, there still remains the difficult task of digesting those various and oftentimes conflicting bits of information and compiling it into a workable report.

The crucial test of the efficiency of the work of the Parole Department is the happiness and development of the girls on parole.

To find foster homes suitable for the continued care and training of juvenile delinquent girls has always been a difficult task. This year's work was made much more difficult by unemployment. With so many women and girls out of work, the churches of all denominations, social agencies, both public and private, probation officers and teachers were all looking for families needing maids and mothers' helpers in which they might place those in whom they were interested. Many of our experienced employers have given up help because of reduced incomes. In spite of all these obstacles, however, the department has had more girls in foster homes than ever before.

There were 2,460 relocations of girls made during the year. Our visitors made 7,100 visits. The department interviewed 7,182 persons in doing its year's work.

The department had 82 girls enrolled in the public schools during the year. Thirty (30) girls were enrolled in grammar school, 38 in high school, 3 attended business college, and 11 were in continuation schools. The ages of these school girls ranged from ten to twenty years.

From June, 1916, when the law governing honorable discharges was passed, to November 30, 1932, the Trustees honorably discharged 751 girls. Many of these girls have kept in touch with their visitors; others, the department has heard about recently through former employers, or through town or city officials who have known the girls and their families. The reports are most gratifying. Two hundred and seventy-eight (278) girls are married and doing well, while 10 girls are married and not doing well; 16 girls are separated or divorced but doing well; 2 girls are widowed and doing well; 169 unmarried girls are doing well, while 28 unmarried girls are not doing well; 7 girls have died, and 241 girls have not been heard from recently; 92.5% of the girls heard from are known to be respected citizens.

The closest supervision of the girls' health is given at all times. This is one of the greatest services that can be rendered to them. With this objective, 352 girls were taken 1,375 times to twenty different hospitals, private doctors, and dentists. There were 102 ward patients. The hospital work increases from year to year, as the number of girls in the care of the department increases. The follow-up work of the girls who have had venereal disease makes up a large part of the hospital work. It is necessary for many of those girls to make weekly trips to the hospital for treatment, and in some cases the hospital advises bi-weekly treatments.

The employers and boarding women are required to report to the Parole Branch any illness of the girls in their homes, however slight. The relatives with whom the girls live are requested to do the same.

On November 30, 1932, there were 248 active bank accounts. Two hundred and ninety-one (291) girls had bank accounts through the year, totaling \$16,139.01.

The amount of the Female Wards Trust Fund on November 30, 1932, was \$9,698.30.

Housing and Town Planning

EDWARD T. HARTMAN, *Consultant on Planning*

During the past year 4 new planning boards have been established, in Acton, Athol, Carlisle and Millis. Hull, not before noted, established its board a year earlier, but did not report to us until this year. Palmer neglected to elect a board. This brings the number of boards to 123 and leaves without boards 3 places required by law to have them, Adams, Chelsea, Marlborough.

But 2 places are added to the list of those acting on zoning: Hull, which adopted her law in 1931, and Great Barrington, which substituted a comprehensive law for an interim law. There are now 75 places with zoning; 52 more or less comprehensive; 11 with use zoning; 10 with interim laws, and 2 with partial zoning.

Boards should begin to function, at least to the extent of reading current literature and keeping in contact with the development of the planning movement. Literature is sent out from this division and from the federation of planning boards. But it too often fails to receive attention, and we do not even know to whom to send it in many cases. Boards fail to report their membership; 35 failed this year, after two requests.

Some boards need reorganization and an entirely new set of members. Some should substitute live members for those who are indifferent. Some boards are too small, some too large. The membership runs from three to twelve. There are 72 with five members each. All things considered, this is the best size.

The main task is for boards to understand the problems and needs of their towns. Towns are dying or living organisms. They may be one at one time, the other at another, in ebb and flow; they may be both at the same time, with disintegrating tendencies operating in some respects and vitalizing tendencies operating in other respects. The planning board's function is to perceive these tendencies and retard or stimulate and direct them. Most towns expect to grow, but how will they grow, with no preparation for growth? Industries have died for lack of plan. Sound industries grow according to plan. Towns, for healthy and permanent growth, must have plans. The tragic problems of all large cities demonstrate this every day.

DESTINY AND PLANNING

Every town has a more or less natural or manifest destiny. This destiny depends upon its natural assets and its actual development to date, and upon its setting in the group of towns in which it is located. Assuming that a town's present status is a result of natural forces and a *laissez faire* policy, it is obvious that by taking thought the town may add to its stature. It may protect here, add there and subtract somewhere else. It does not have to depend upon mere drift, upon a hit-or-miss policy. If the people of a town have a definite sense of direction for their town they may, with planning, zoning, regulation of subdivisions and of building construction, and by similar methods, largely direct the destiny of their town. To conceive a destiny is the primary step before any kind of planning or regulatory work may be done effectively.

Whether or not a town is to be muddled and inefficient is going to depend upon what the people do about it. It is going to depend upon the development and acceptance of and striving towards an objective, a destiny that is worthy of a human society.

What, then, can any planning board do unless it has first made up its mind in what direction its town should travel? It is manifest that there will be a mainly unsatisfactory destiny if drift is permitted. There is possible a better destiny if the people have a sense of direction and plan to work in that direction. If a town gets this sense of direction it will come more nearly seeing itself whole than by any other process. A conception of the destiny of a town, a sense of direction, is the first essential for a planning board.

It is because of the absence of this sense of direction, this objective concept, that so little planning work is being done. Right planning is based upon complete knowledge, which makes possible an even development and a co-ordination of all activities. Seeing a town whole, which can't be done till you know what you have and what you are going to do with it, and planning for well-rounded results are basic, and the too common tendency to wait awhile or to shuffle along keeps us where we are, while we should be making progress.

NEW LEGISLATION

The legislative proposals which will come from the recess committee on planning will decide the future of the work in this State for many years, or things will remain as they are. Our planning boards need a more definite status, we need more effective control over land subdivisions, we need regional planning powers, and we need some changes in our zoning enabling law. The recess committee will report,

but the ultimate result will depend largely upon the constructive activities of the planning boards. Planning in Massachusetts faces a crisis and it depends largely upon board members whether it is to be ably met or allowed to drift. It is timely to urge the members to carefully consider the situation and do all in their power towards proper solutions.

ARE MINIMUM LOT SIZES ADVISABLE?

In the evolution of local zoning laws much attention is being given to the question of minimum lot sizes. Purchasers are unfairly treated when sold a lot too small to be usable under regulations or otherwise. Such lots are frequently used as a method of milking buyers. Say the lots are 20 feet wide and every other lot is sold. A buyer finds, because of a side yard requirement or the size of the house he wants or because he wants some space about it, that he cannot build. He goes to the developer and is told that all lots are sold, "but I know the owner of the next lot and I will see what I can do to help you." The developer interviews himself and reports, "I can get that next lot for a \$100 bonus." The buyer gets two lots for the price of two plus \$100 and then has but a 40-foot frontage. With but side yard provisions as protection this method will be used by unfair developers, because it is a rare buyer who knows ahead of time the requirements under the law or for a decent development.

A home built upon a narrow lot has little sale value and is unfair in that it gets its light and ventilation, if any, from the neighbors, increases the fire hazard, decreases privacy, tends to overload street, water and sewer systems and increases congestion. Lots too small cost the buyer more in proportion than larger lots, retard and finally block the development of the area, throw a serious burden upon the owner and unduly increase the tax rate.

A development of small lots rarely ever sells out, as may be seen all over the country. A proper development increases in desirability as it grows. When most of the lots are properly developed a home-seeker will pay any reasonable price because of the safety afforded and the entire development sells. This actually decreases the cost of utilities and helps the developer, the buyer and the community.

Narrow lots create a serious private garage problem. There is no room for a garage and no way to get to one. There is no room for a garden or for children to play and a shack development is the usual result.

Minimum size provisions are not general, but they are provided in at least 16 places in Massachusetts and are frequently found elsewhere. They vary according to conditions and to the scheme of growth which the town may have in mind. Some sample sizes are: — Lynn, 4,000 square feet; Revere, 4,500; Medford and Gloucester, 5,000; Fairhaven, 6,000; Winchester, 6,500; Needham, 7,000; Lexington and Westwood, 7,500; Lincoln and Weston, 10,000. Great Barrington has just adopted a by-law providing for lots of 5,000 sq. ft. in the older sections and 10,000 elsewhere. Lake Forest, Ill., has a large area where 20,000 sq. ft. are required, and Santa Barbara County, Cal., requires a minimum of one acre in areas developing in accordance with such a scheme of growth.

A minimum frontage and width is also important. Shoestring and freak-shaped lots will otherwise result. They will frequently damage the community far beyond anything that will be justified by the benefit to the developer.

HOUSING EXPERIMENT AT LOWELL

The condition of the housing experiment at Lowell remains unchanged with payments on the houses erected going on regularly.

A statement of the money spent and the money paid back into the State treasury is as follows:

Appropriation (made in 1917)	\$50,000 00
Expenses:	
Land purchased, 7 acres with room for 40 houses, including also one house standing on lot	\$12,500 00
Cost of 12 houses	28,128 77
Improvements	2,626 77
	43,255 54
Balance returned to State treasury	\$6,744 46
Sale price of houses and lots	36,862 30
Amount paid on principal	29,974 08
Principal remaining unpaid December 1, 1932	\$6,888 22
Paid back to State treasury in monthly installments:	
Interest	\$14,026 76
Principal	29,974 08
Rent	3 26
	44,004 10

THE FIVE INSTITUTIONS

A brief statement relating to the general supervision of each institution will be followed by comparative and more detailed consideration of financial administration. Further details about the work of the various institutions may be found in the institution reports which are published separately.

Total valuation of plant, real and personal, \$3,004,846.38.

Normal capacity of plant, 2,800. Value per unit of capacity, \$1,073.15.

Provides infirmary care for indigent persons not chargeable for support to any city or town.

Numbers

	Males	Females	Total
Number December 1, 1931	1,938	1,050	2,988
Admitted during year	2,767	744	3,511
Discharged during year	2,524	723	3,247
Remaining November 30, 1932	2,181	1,071	3,252
Individuals under care during year	—	—	6,190
Daily average inmates during year	1,949.8	1,076.6	3,026.4
Daily average employees during year	233.35	278.30	511.65
Largest census during year	—	—	3,252
Smallest census during year	—	—	2,789

Of the 6,499 cases cared for during the year, 5,908 were in the general hospital wards; of which 4,497 were males and 1,411 were females. Of this number, 1,480 were discharged well, 624 were improved, 729 not improved, 471 died, and 2,604 remained in the hospital at the end of the year. Of the number cared for in the hospital, there were 397 cases of tuberculosis, 20 of epilepsy, 126 of alcoholism, 6 of erysipelas, 7 of influenza, 36 of measles, 2 of scarlet fever and 1 of diphtheria. Of the 471 deaths during the year, 98 were in the tuberculosis wards.

In the tuberculosis wards, the number of patients treated shows a marked decrease compared with 480 cases the previous year. There were classed as minimal, 23; moderately advanced, 125; far advanced, 239. Of the number admitted, 217 were in the men's department and 53 in the women's department. There were 211 cases discharged: 56 relieved, 77 not relieved and 78 died — 55 males and 23

females. In the non-pulmonary group there were 12 cases: 11 male and 1 female. The treatment has been similar to that of previous years, namely, fresh air and dietary. Mercury vapor lamps and heliotherapy have been used in the treatment of the non-pulmonary group.

The clinic for the treatment of varicose veins is very satisfactory, with an average attendance of ten patients.

In the men's hospital, the addition of a new building made available space for 90 additional beds, increasing the capacity of this department to 570 beds. A total of 2,918 male patients were admitted to the receiving ward during the past year for examination, classification and transfer either to the hospital wards for medical or surgical treatment, or to the dormitories, when the patient's condition did not require hospitalization. A total of 127 major operations were performed, an increase of 35 over the preceding year; also 116 minor operations.

In the women's hospital, the work consists of innumerable general medical treatments; the bulk of the work has been in caring for cases of cardiac and arthritic conditions and malignancy, also many pediatric cases, infant feeding and the infectious diseases. There were 114 deaths in the women's department, mostly ascribed to diseases of the aged.

The opening of the new maternity building on April 1 has greatly helped in the performance of our work and is of great comfort to the patients. In the maternity department there have been 169 births, 100 males and 69 females. Six were still-born.

In the surgical clinic there were 53 major surgical operations performed. In the nose and throat clinic there were 13 major operations and 12 minor operations.

In the venereal clinic there were treated 100 cases of acute gonorrhea and 111 cases of syphilis.

In the department for mental diseases there were 6 admissions during the year: 3 as first admissions, 1 readmission and 2 transfers from other state institutions. There were 32 deaths in this department, 19 male and 13 female. Eleven (11) were discharged from the books, 8 males and 3 females; the 3 females were improved, the 8 males unimproved. A decrease of 19 deaths is noted in comparison with the previous year. The deaths from tuberculosis in this department were at the lowest level in many years, there being but 2, 1 male and 1 female. One (1) man and 1 woman died of cancer.

Owing to the fact that it was decided in 1931 to discontinue commitment of the insane to the State Infirmary, only 4 commitments by the Court were made, the last being October 10, 1931. During the remainder of the year patients suffering from mental diseases were studied in the hospital or asylum wards, and 30 cases, 25 males and 5 females, were committed by the Court to other state hospitals. At the close of 1932 there were 657 patients under treatment in this department, compared with 788 in 1929. This decrease is due to the fact that no more transfers are being made to this institution and nearly 100 male patients have been transferred elsewhere during the past two years. The diminution in the number of the mentally ill women has enabled us to relieve the over-crowding which was very marked the past few years. As in previous years, every effort has been made to keep as many patients occupied as possible, and a daily average of 78 men and 314 women were kept at some form of productive work.

The dental department is a busy place: 1,726 chair patients; 2,106 extractions, in addition to much laboratory work, treatments, etc.

Occupational therapy at the institution has been extended during the year. An average of 130 patients, monthly, have been treated: 31 in the central workshop, 31 in the men's hospital, 45 in the women's hospital and 23 in the mental department. In June, the headquarters of this department were moved to the third floor of the new industrial building which proved to be a large factor in the orderly speeding up of the work.

The industrial activities, reorganized and removed to the newly constructed industrial building, show a marked increase in the unusually large amount of industrial work accomplished. Some of the larger and special items are listed as follows: bedspreads, 100 dozen; suits of pajamas, 31½ dozen; pillows, 52 dozen; white overalls, 36½ dozen; rope mats, 20; hickory shirting, 5,500 yards; toweling, 13,000 yards; bathrobes, 35½ dozen; laundry bags, 70 dozen; hair mattresses,

346; rugs woven, 120; shoes, 12 dozen pair; shoes repaired, 1,748 pairs; books bound, 508; pictures framed, 102, and pieces of harnesses repaired, 59.

Production from the farm includes 15,751 lbs. of beef; 5,448 lbs. of veal; 70,153 lbs. of pork, which is an increase of 18,000 lbs. over last year; 14,245 dozen eggs, and dressed poultry, 15,253 lbs. The hay crop includes 339 tons of English hay and alfalfa, 590 tons of ensilage, and 343 tons of green feed. The vegetable crop includes 294,500 lbs. of root vegetables; 287,949 lbs. of green vegetables; 3,460 lbs. lettuce, etc.; 87,000 lbs. of squash; 70,205 lbs. of apples; 6,300 lbs. of peaches and plums, and 6,159 lbs. of strawberries.

The dairy herd of 192 head includes 108 cows, 34 heifers, 46 calves and 4 bulls, all tuberculin tested. The milk production has averaged 12,143 pounds per cow, with an average butter fat production of 416 lbs. for which we have been placed, for the sixth year, on the honor roll by the National Dairy Association.

Three new buildings have been erected during the year as follows: Assistant Superintendent's residence; employees building with 24 two-bed suites of rooms and reception rooms, and men's dormitory with a capacity of 200 beds. These are now ready for occupancy.

Power plant improvements have been made, installing new boilers, smoke flue, pipes, fittings, coverings, etc., and oil burning equipment, and are now in full operation.

The library has continued to be a source of great interest to the hospital and to other people. Interest in the staff library by the employees has been greatly stimulated during the year. A total of over five thousand books are on the shelves in these libraries.

INFIRMARY DEPARTMENT AT THE STATE FARM, BRIDGEWATER

(Under the Department of Correction)

ROBERT C. SHERMAN, *Superintendent*

Provides infirmary care for indigent persons (male) not chargeable to any city or town. The data following are for the fiscal year ending September 30, 1932.

Numbers

MASSACHUSETTS HOSPITAL SCHOOL, CANTON

JOHN E. FISH, M.D., *Superintendent*

Trustees

MR. WALTER C. BAYLIES, Taunton, *Chairman*.

MR. GEORGE H. ELLIS, Newton.

MR. WILLIAM F. FITZGERALD, Brookline.

MR. ANDREW MARSHALL, Boston.

ROBERT SOUTTER, M.D., Boston.

Opened December 1, 1907. Total valuation of plant, real and personal, \$829, 103.95. Normal capacity of plant, 346. Value per unit of capacity, \$2,396.25.

Provides care and schooling for crippled and deformed children of the Commonwealth; those between the ages of five and fifteen and mentally competent to attend public schools are eligible for admission. Medical and surgical treatment for minor wards under the care of the Division of Child Guardianship is also provided.

	<i>Numbers</i>		
	Males	Females	Total
Number December 1, 1931	163	166	329
Admitted during year	200	167	367
Discharged during year	211	176	387

Daily average employees during year	38.2	78.7	116.90
Largest census during year	—	—	326
Smallest census during year	—	—	183

Of the 696 cases cared for during the year, 387 were discharged — 327 from hospital care and 60 from the school. There have been admitted 367 children — 300 to the hospital and 67 to the school. There remained at the close of the year, 290 crippled and deformed children in the school and 19 sick minor wards in the hospital. The average age of all children admitted during the year was 8 years, 8 months and 26 days; the youngest being 7 months, and the oldest, 18 years, 7 months and 23 days.

Of the 56 orthopedic school cases who were discharged, 15 had completed the prescribed course of study and were qualified for high school or some useful occupation. Four (4) failed to return from visits to their homes and automatically were discharged at the end of the year. Two (2) boys were discharged as defective delinquents. Nineteen (19) had recovered or were so much improved that they were no longer in need of care and special training. Sixteen (16) were physically or mentally unpromising and the school had nothing further to offer for their advancement.

Exclusive of 10 whose birthplaces are unknown, 299, or 81.7 per cent, of the 366 children actually admitted were born in Massachusetts; 53, or 14.4 per cent, were born in other parts of the United States, and 4, or 1 per cent, came from foreign countries. The nativity of 76 fathers and 40 mothers was unknown. Out of the remainder, 91, or 24.8 per cent, of the fathers, and 115, or 31.4 per cent, of the mothers, were born in Massachusetts; 52 fathers and 62 mothers were born in other parts of the United States; while 147, or 40 per cent, of the fathers, and 149, or 40.7 per cent, of the mothers were foreign born.

When the Massachusetts Hospital School was established, the needs of crippled children generally were not appreciated, although institutions for the relief of the deaf, the blind and the mentally defective had long been regarded as a necessary function of government. Within this brief period of twenty-five years, many well-organized general hospital facilities and orthopedic clinics have been enlarged and new ones established in various parts of the state, and public interest in the welfare of crippled children has become widespread. Home teaching of crippled children has been made possible by legislative authority. In several cities of the state special classes for crippled children are maintained as a necessary part of the public school system, and an annual census of all crippled children of school age is required by the Acts of 1930 so that it is now possible for the Department of Public Welfare in co-operation with the State Department of Education, to make scientific and practical classification of all crippled children in the Commonwealth.

Educational activities and the responsibilities of the teaching staff are definitely separated from the medical and nursing service. Yet each must be co-ordinated at many points and adjustments also made to harmonize our efforts for the welfare of the children with their parents and with the community. The solution of many inter-departmental and community problems has been found through social service which has maintained its place as one of the most important branches of the work.

Many of our discharged cases, especially among the younger children, go directly back into their own homes, and, as a result of their school work here, go on in their classes in the public schools without serious loss of time, even though their convalescence may have extended over a period of years. They came to us upon the request of their parents or guardians to whom they are also returned. Their problems are rather orthopedic and educational than social. The solution lies in the utmost possible correction of the physical disabilities which brought them to us,

and in our provision of educational advantages comparable to those offered to the other children of the Commonwealth.

Another class of patients discharged need rather more help on their return to normal life. These are the boys and girls whose family ties have been broken by misfortunes of various sorts. They need new connections established, and new guidance sought. Given suitable opportunities, some of these become numbered among our most worthy and worthwhile graduates.

The third class of discharges are those of children who have been found, during their stay with us, to be in need of permanent custodial care. We always have a few who are found to be more suitable for some other type of institution, such as one of the schools for the feeble-minded.

Though unprecedented economic conditions still continue, it is encouraging to report that our graduates do continue to find opportunities for full or partial self-support.

Our girls who receive the excellent domestic training at our cottages have been placed as mothers' helpers and in varying forms of domestic work. One found a place in a private hospital of long standing in the city of her birth, and plans to continue her studies as soon as she has gained her financial footing. One of our secretarial class, having reached our age-limit, was able to get part-time clerical work near her father's home. She proved satisfactory in this, and is now to be assisted to carry on advanced commercial courses, while keeping her working connection in her spare time. Another girl in these classes found clerical work in a suburban day school during her summer vacation. She proved valuable enough so that she is now studying with added interest, in the hope that she may sometime find a permanent position of the same sort. Another girl of the secretarial group found on her discharge a position with a small domestic concern, where she could answer the telephone, make out bills, and do other work of the same kind. The last three girls mentioned are all permanently and heavily handicapped. Their experience shows that if given an opportunity, they prove efficient at this type of work.

Twenty years have now passed since our first class was given the school diploma, in June, 1912. Our earlier graduates are now old enough to make it possible to judge their attainments. That so many young men and women of these earlier classes are holding positions of trust and importance in their respective communities is cause for pride to those who knew them as girls and boys. They have been victorious, once in the stern struggle which meets every man who earns his bread, and once in their combat with serious, often permanent, physical handicap.

A total of 276 surgical operations have been performed by members of the resident and consulting staff. Removal of tonsils and adenoids figures 201 of the above.

Our splendid herd of high grade Guernsey cows have supplied an abundance of milk averaging more than one quart per day for each one in our entire population (129,129 quarts). The poultry plant supplied 8,435 dozen eggs and 6,081 pounds of dressed poultry.

With an appropriation of \$187,960, plus \$5,278.62 brought forward from balance of 1931, the total amount available for maintenance was \$193,238.62. Of this amount, \$184,411.58 was expended. Of the amount expended \$116,952 was for salaries, wages and labor; \$67,459.58 for all other expenses. Net weekly per capita cost of maintenance, \$11.74. Total receipts from all sources other than the State treasury, \$64,838.29. Net cost of maintenance to the Commonwealth, \$119,573.29. Ratio of daily average number of persons employed to daily average number of inmates, 2.5. The trustees estimated the sum of \$192,148 for maintenance in 1933.

LYMAN SCHOOL FOR BOYS, WESTBOROUGH

CHARLES A. KEELER, *Superintendent*

Trustees of Massachusetts Training Schools

MR. JAMES W. McDONALD, Marlborough, *Chairman*.

MR. JOHN J. MAHONEY, Watertown, *Vice-Chairman*.

MR. FRANCIS B. SAYRE, Cambridge.

MRS. JOSEPHINE BLEAKIE COLBURN, Wellesley Hills.

MRS. DOROTHY KIRCHWEY BROWN, Boston.

MR. CHARLES M. DAVENPORT, Boston.

MR. HERBERT B. EHLMANN, Brookline.

MR. BENJAMIN F. FELT, Melrose.

MR. WILLIAM B. THURBER, Milton.

MR. ROBERT J. WATSON, 41 Mt. Vernon Street, *Executive Secretary*.

Total valuation of plant, real and personal, \$1,017,076.40.

Normal capacity of plant, 480. Value per unit of capacity, \$2,118.90.

Provides custodial care and industrial training for delinquent boys under fifteen years of age. Cottage plan.

	<i>Numbers</i>		
	Males	Females	Total
Number December 1, 1931	480	—	480
Admitted during year	772	—	772
Discharged during year	806	—	806

Individuals under care during year	686	—	686
Daily average inmates during year	452.13	—	452.13
Daily average employees during year	68.59	46.08	114.67
Largest census during year	482	—	482
Smallest census during year	431	—	431

Of the 772 cases received during the year, 235 were committed by courts, listed as follows: assault and battery, 3; breaking and entering, 85; carrying a revolver without a license, 1; delinquent child, 2; drunk, 1; indecent assault, 3; larceny, 90; lewdness, 3; malicious injury to property, 6; running away, 8; stubbornness, 21; unlawful appropriation of auto, 11; violation of school laws, 1.

Of the above, 209 had been arrested before and 16 had been inmates of other institutions. Fifty-six (56), or 23 per cent, were of American parentage; 141, or 60 per cent, were foreign born; and the parentage of 2 was unknown. Five (5) of the boys were foreign born, and 230 were born in the United States. In addition to the court commitments, 401 were returned from places, 91 runaways captured, 38 returned from hospitals and 7 returned from funerals.

Of the new commitments this year, 41 boys were eleven years of age or under. These young boys are taken care of in two cottages, one seven miles and the other three miles from the main school. They do not mingle with the older boys.

The average length of stay in the Lyman School of boys paroled for the first time during the year ending November 30, 1932, was 12.84 months.

Of the 806 cases discharged or released during the year, 455 were released on parole to parents and relatives; released on parole to others than relatives, 44; boarded out, 138; runaways, 103; released to hospitals, 46; transferred to other institutions, 13; released to funerals, 7.

All departments of the school have progressed, and the work accomplished has seemed to show an earnest effort on the part of teachers and instructors. The health of the boys has been good during the past year and the institution has been free from contagious disease. The wholesome food and opportunity for athletics and the watchful care of the physician keep the boys in good physical condition.

There have been no radical changes in our school curriculum during the year. The work has followed along the lines we feel will give our boys the greatest educational advantages. However, there certainly has been progress both in the line of variation of program and construction work which has influenced our school directly and indirectly.

Our school must conform with the policies and principles of the outside schools. We draw our student body from the public systems throughout the state and with this is an obligation to continue and broaden (even while we are correcting) the educational scope of the boys.

We are relying more and more on the advice and council of the psychiatric clinic that we may have a better adjustment and understanding of the boy in school or trade placement. Consultations are particularly helpful in discipline problems, as well as in trade assignments.

The classes range from the special (including all boys whose mental rating is lower than the third grade) through the first year of high school. The boy is graded and definitely placed only after a complete survey has been made of his work in the outside school, his work here, and his rating mentally under the Binet test. The grades are supplemented by music, drawing, gymnasium, band, sloyd and manual training classes.

The gymnasium work consists chiefly of the standard drills and exercises for strengthening the body and overcoming bad posture. All sports are played by all the boys and representative teams are picked for competition with outside teams. The gymnasium and pool are valuable outlets for the boys' nervous energy and usually freshen and stimulate them. The policy as to athletics and sports is to encourage a clean spirited game with a view to interesting all boys to the extent that they will participate and thus gain a wholesome sort of exercise.

The new auditorium takes care of our large gatherings such as programs, community singing and church services. The old school hall has been divided into four new rooms. The special class has been moved to one of the new rooms, thus partly segregating them from the other boys, and enabling them to do much better work. The library, which was formerly used merely to supply reading material for the cottages, has now been transferred to the school proper and is being used for reference work in conjunction with our various academic subjects.

The past year has been one of pleasure and profit for the boys of the Scout troops. We now have three troops with the prospect of another troop in the near future. As our Scouts progress along the Trail of Citizenship, hikes and actual contact with nature help shape their lives. Most of our boys never had an opportunity to go into the woods and really study the birds, trees and flowers. We hope these studies will instill in the Scouts a new feeling and spirit, by giving the boys a fuller picture of scouting while they are with us here. Our troops had a booth at the Annual Rally and Exhibition of Algonquin Council Boy Scouts of America at Framingham in February. A second place ribbon was awarded to the booth for general excellency. Fifty Scouts in full uniform marched in the Memorial and Independence Day parades in Westboro. Regular troop meetings are held every week which every registered Scout attends. These meetings are in charge of the Scout Masters.

The band under its present leader has had another successful year. We now have a Junior and a Senior class. Forty boys have received daily instruction. The band gives many concerts for the benefit of the school and pleasure of friends of the boys on visiting days. Many of the boys express a desire to remain in the school to take the course in music.

The class in printing has done valuable training work as well as produced a large amount of printing for the various groups under the Department of Public Welfare. A class of eighteen boys are learning to be all round printers and there is no department in the school that imparts more knowledge of a general nature or gives a better teaching of a trade than does the print shop.

The past year has been favorable for all crops raised on the farm. There was an especially large yield of vegetables raised, giving an abundance for the institution use. The dairy has made good returns for the year, producing 184,667 quarts of milk and 5,267 pounds of butter. The swine herd produced 28,041 pounds of pork. The poultry department produced 2,303 pounds of chicken. Besides the regular farm work, several acres of land were cleared. Roads were built and much grading was done around the new buildings.

The work of the various vocational and trade training departments has been kept up to the standard of previous years. Needed repairs in and about the buildings have been made by the boys in these classes under the direction of instructors. In addition many permanent improvements have been made.

Pt. I.

Alterations have been made in the school building, giving us four additional well lighted and ventilated schoolrooms.

Maple cottage was discontinued as a boys' dormitory and has been remodeled and made into very pleasant quarters for employees.

The foundation and basement of building for housing the fire truck and equipment was completed. New sidewalks and roads have been built and much grading in the area in front of the new cottages has been done.

From an appropriation of \$227,100, plus \$1,037.89 brought forward from the balance of 1931, \$221,737.89 was expended. Of the amount expended, \$122,023.16 was for salaries, wages and labor; all other expenses, \$99,714.73. Net weekly per capita cost of maintenance, computed on expense less sales and refunds from maintenance, \$9.388. Total receipts from all sources other than the State treasury, \$452.22. Net cost of maintenance to the Commonwealth, \$221,285.67. Ratio of daily average number of persons employed to daily average number of inmates, 3.9. The trustees estimate that \$243,254 will be necessary for maintenance in 1933.

INDUSTRIAL SCHOOL FOR BOYS, SHIRLEY

GEORGE P. CAMPBELL, *Superintendent*

Trustees of Massachusetts Training Schools

Total valuation of plant, real and personal, \$788,705.42. Normal capacity of plant, 334. Value per unit of capacity, \$2,361.39.

Provides custodial care and industrial training for boys over fifteen and under twenty-one years of age. Only boys under eighteen may be admitted.

Numbers

	Males	Females	Total
Number December 1, 1931	306	—	306

Daily average employees during year	55	22	77
Largest census during year	350	—	350
Smallest census during year	294	—	294

The list of causes of admission in the 402 cases committed during the year was as follows: abuse of female child, 5; aiding prisoner to escape, 1; arson, 1; assault, 1; assault and battery, 11; assault and robbery, 1; assault with dangerous weapon, 3; attempted arson, 1; attempted larceny, 3; attempt to break and enter, 7; being a runaway, 5; breaking and entering, 42; breaking and entering and larceny, 79; carrying a dangerous weapon, 1; drunkenness, 3; failure on parole, 8; false fire alarm, 1; forgery, 1; indecent assault, 5; larceny, 88; lewdness, 6; malicious mischief, 5; receiving stolen goods, 2; robbery, 2; robbery armed, 5; stubborn, disobedient and delinquent, 37; unlawful appropriation of auto, 59; unlawfully riding freight car, 1; unnatural act, 1; vagrancy, 3; violating auto laws, 14.

In addition to the above, 197 boys were returned from parole, 7 returned from leave of absence, 15 returned from hospitals and 2 returned from court. Of the 402 boys committed by the courts, 322 had been in court before, and 60 had been inmates of other institutions. Eighteen (18), or 4.4 per cent, of the 402 boys committed were foreign born, and 383, or 95 per cent, were born in the United States. Seventy-three (73), or 18 per cent, were of American parentage; 206, or 51 per cent, were of foreign-born parents; while the parentage of 37 was unknown.

Of the 606 boys discharged or released during the year, 369 were paroled; returned cases re-paroled, 178; granted leave of absence, 7; transferred to Massachusetts Reformatory, 5; committed to Department for Defective Delinquents at Bridgewater, 7; transferred to other institutions, not penal, 15; taken to court on habeas and held, 12; absent without leave, 10; transferred to Lyman School for Boys, 2; returned to court, under age, 1.

With a normal capacity of 334 the school carried an average of 331 during the year. Nine hundred twenty-nine (929) boys were dealt with during the year and the length of stay in school was 8.04 months.

More than six hundred boys passed through the school. Every boy received careful individual attention by the teachers, the superintendent and the several members of the staff. The added burden due to the present industrial condition has increased the need of careful work in planning for the training and future of our boys. One of our problems has been training for the placement in foster homes of boys whose home-going would add too greatly to the present difficulties of their families. Such boys are greatly helped by training in the dairy barn, poultry department, and learning to become efficient helpers in cooking and baking. However, once paroled, our boys have done as well as in the year previous; the number returned for fault being about the same, i. e., 206 out of 1,181 on parole. In the majority of cases, complete or almost complete idleness was a large factor in the lad's failure. Even in normal times there is a tremendous lack of opportunity for the proper use of leisure for boys from sixteen to twenty years of age, and when as now they have scarcely a nickel to spend for fun, the wonder is that they do so well.

The general atmosphere of the school has been particularly good during the year. There have been fewer disciplinary problems and greater co-operation on the part of the boys than ever before. It is interesting to note that not above ten per cent of all who were disciplinary problems were engaged in some form of athletics or other organized play activity. With the completion of the new playground next spring, there will be available increased opportunity and variety in the forms of physical play. No form of sport appeals to boys more than swimming, and it is hoped that before long we can add an adequate outdoor swimming pool to the things a boy may look forward to as a joy in itself.

The average length of stay in the school is eight months. This is by far the shortest training period of any similar institution in the country. The average age is sixteen years and six months.

Group training is essential, but quite as important is personal understanding. In an effort to emphasize still more this need, the staff has been so organized as to insure an even greater degree than before of personal guidance for the boy in all his contacts in the school. It is only by developing his abilities and minimizing his difficulties that we may help the boy to make a permanent adjustment in the open community.

With an appropriation of \$152,050 plus \$516.09 brought forward from balance of 1931, the amount available for maintenance was \$152,566.09. Of this amount, \$149,175.50 was expended. Of the amount expended, \$77,052.17 was for salaries, wages and labor; all other expenses, \$72,123.33. Net weekly per capita cost of maintenance, computed on expense less sales and refunds from maintenance, \$8.63. Total receipts from all sources other than the State treasury, \$220.32. Net cost of maintenance to the Commonwealth, \$148,955.18. Ratio of daily average number of persons employed to daily average number of inmates, 1 to 4.3. The trustees estimate that \$161,001 will be necessary for maintenance in 1933.

INDUSTRIAL SCHOOL FOR GIRLS, LANCASTER

MISS CATHARINE M. CAMPBELL, *Superintendent*

Trustees of Massachusetts Training Schools

Total valuation of plant, real and personal, \$635,545.50. Normal capacity of plant, 303. Value per unit of capacity, \$2,097.51. Founded in 1854 as a private institution. Taken over by the State in 1856.

Provides custodial care and industrial training for delinquent girls under seven-teen years of age at time of commitment.

<i>Numbers</i>			
	Males	Females	Total
Number December 1, 1931	—	342	342
Admitted during year	—	263	263

Daily average employees during year	27.4	54.0	81.4
Largest census during year	—	358	358
Smallest census during year	—	290	290

The list of causes of admission for 152 commitments of the 264 cases received at the school during the year is as follows: adultery, 1; breaking and entering in the daytime, 1; breaking, entering and larceny, 1; delinquent, 4; delinquent by reason of lewd and lascivious cohabitation, 2; delinquent — lewd, wanton and lascivious, 12; delinquent — stubborn, 1; fornication, 7; habitually associating with vicious and immoral person, 1; larceny, 8; lewdness, 20; lewdness — being a runaway, 1; lewd and lascivious, 6; lewd person, 2; lewd person in speech and behavior, 1; lewd, wanton and lascivious person in speech and behavior, 4; lewd and wanton person in behavior, 2; runaway, 13; stubborn child, 37; stubborn and disobedient, 4; stubbornness, 20; transferred from Division of Child Guardianship, 3 (delinquent; runaway; stubbornness); violation of probation, 1.

Of the above, 52, or 34 per cent, were of American parentage; 68, or 45 per cent, were of foreign parentage.

Recalled to the school, 34: from attending court, 1; from visit home, 1; from funeral, 2; from running from the school, 3; from hospitals, 26; for a visit, 1.

The average length of stay in school of all girls was 1 year, 6 months and 19 days.

Of the 316 girls released from the school during the year, 117 were released on parole to parents or relatives; on parole to parents to attend school, 21; on parole to other families for wages, 114; on parole to other families to attend school, 9; for a visit home, 1; from visit to Industrial School, 1; to attend court, 1; for funeral, 2; ran from Industrial School for Girls, 5; transferred to hospitals, 37; committed to Belchertown State School, 1; committed to Department for Defective Delinquents, 4; committed to Worcester State Hospital, 1; committed to Wrentham State School, 1; transferred to private institution, 1.

Of the 152 girls committed to the school, 146 were born in the United States and 6 in other countries.

A girl committed to the school remains in the receiving cottage approximately six weeks, where she receives her initial academic and industrial training, and is then transferred to the central school building for remainder of her academic work.

By the time a girl is ready to enter the central school building, the various reports on her mental tests are available, a general school test has been given, and follow-up work on the same has been done. She may now be placed in an academic class with a reasonable degree of accuracy. The school tests, while simple, have proven so satisfactory that it is seldom necessary to relocate the girl. Previous to her transfer, a personal interview with the principal has helped to discover her interests and ambitions and these form the basis of the planning of the remainder of her program. As a result of excellent work done in the receiving cottage and an intelligent placement, the girl, with few exceptions, is most responsive.

The fundamentals of the academic work are based on the public school requirements of the various grades, in addition to such subjects as might tend to broaden the girl's interest. The younger girls are given practically full time school work, and extra time is given to the high school group.

The goal toward which the school work is planned is to give each girl the amount of school work which she can accept; to plan the work to meet the need of the girl whose formal education must cease when she leaves the school, as well as the girl who may be able to continue in school; and to contribute, through the educational program, a desire for further education.

Sewing, arts and crafts, domestic science, physical training, household training, music, assemblies and special programs, — all these offer a remarkable challenge for the creation of new standards and ideals, to the end that the girls returned to the community may prove their worth.

Potatoes and other vegetables sufficient for the needs of the institution were produced by the farm. There was a normal supply of small fruits and apples. Milk for the use of the institution was furnished by the dairy, and 21,000 pounds of fresh pork provided.

Construction of the new cottage, which was begun in the early part of October, 1931, has been completed. Opened for occupancy in November, 1932, it greatly relieved the crowded conditions.

The dentist reports seeing 1,088 girls, while the specialist in eye, ear, nose and throat has seen 620 girls.

From an appropriation of \$141,650 a total of \$138,264.26 was expended for maintenance of this institution. Of the amount expended, \$73,066.72 was for salaries, wages and labor; all other expenses, \$65,197.54. Weekly per capita cost of maintenance, computed on expense less sales and refunds from maintenance, \$7.98. Total receipts from all sources other than the State treasury, \$370.73. Net cost of maintenance to the Commonwealth, \$137,893.53. Ratio of daily average number of persons employed to daily average number of inmates, 1 to 4.0. The trustees estimate that \$145,285 will be necessary for maintenance in 1933.

SUPERVISION OF INSTITUTIONS

In the matter of financial supervision, the Department examines and analyzes institution expenditures, keeping constantly in mind the function of the institution and the relation of its business to the care, education, and welfare of the inmates. The following tables are designed to show in detail the financial condition of each institution.

CAPACITY, POPULATION AND INVENTORY

Table I gives in brief a statistical representation of the size and value of the five institutions under the supervision of the Department. Part I deals with the number of persons served by the institutions. Part II deals with the value of the property.

TABLE I. — PART I. — *Capacities and Population of the Five Institutions for the Fiscal Year ending November 30, 1932*

INSTITUTIONS	Normal Capacity	PRESENT ANY ONE TIME		DAILY AVERAGE NUMBER PRESENT DURING THE YEAR		
		Largest Number	Smallest Number	1932	1931	1930

II. RECEIPTS

Table II is designed to show every item of income to each institution from whatever source, for whatever purpose, excepting certain private funds, casting all together for ready comparison. According to this table the total receipts from all sources were \$2,197,719.36. Of this amount, \$2,005,209.14 was received from the State treasury, and the remainder, \$192,510.22, came in on account of the institution, through board of patients, sale of products or otherwise.

TABLE II. — *Receipts of the Five Institutions during the Fiscal Year ending November 30, 1932*

INSTITUTIONS	FROM THE INSTITUTIONS					FROM THE TREASURY				Total Receipts	
	Board and Care of Patients	Personal Services	Sales	Interest on Bank Balances	Miscellaneous	Total	On Account of Maintenance	For Special Purposes	For Trust Funds

IV. PER CAPITA COST

Table IV shows for each of the five institutions the total cost of maintenance. It further shows all receipts from sales or refunds; the difference, which is the net cost to the institutions; and the average net weekly per capita cost to the institution, with a column showing the corresponding per capita for the three-year period just ended.

TABLE IV. — *Expenditures and Net Weekly Per Capita Cost of the Five Institutions for the Fiscal Year ending November 30, 1932*

V. PAYROLL

The table shows the daily average number employed in 1931 and 1932, with the same average for the three-year period ending November 30, 1932. The same treatment is given the average monthly compensation and the weekly per capita cost. The total average number employed was 901.62, while for the three-year period preceding 1932 it was \$71.86 and \$98.53 in 1931. The total average monthly compensation paid was \$424.27, as against \$406.45 in the preceding three-year period, and \$411.50 in 1931. Miscellaneous and incidental employment not entered upon the payrolls of the institutions does not appear on this tabulation.

TABLE V. — *Payroll of the Five Institutions, showing Total Number employed for the Fiscal Year ending November 30, 1932*

INSTITUTIONS	AVERAGE NUMBER EMPLOYED		AVERAGE MONTHLY COMPENSATION		WEEKLY PER CAPITA COST		NUMBER OF INMATES TO ONE EMPLOYEE	
	1932	1931	1932	1931	1932	1931	1932	1931

THE COUNTY TRAINING SCHOOLS

Under the provisions of General Laws, chapter 77, section 2, the five county training schools for truants and habitual school offenders are subject to the visitation of this Department, which is required to report thereon in its annual report. The names of the schools and the Superintendents are as follows:

Essex County Training School, Lawrence, W. Grant Fancher
Hampden County Training School, Springfield (Feeding Hills), William H. McGarry
Middlesex County Training School, North Chelmsford, J. Earl Wolton
Norfolk, Bristol and Plymouth Union Training School, Walpole, James H. Craig
Worcester County Training School, Oakdale (West Boylston), Alton W. Peirce

Table I shows the trend of the population in the County Training Schools during the past five years.

TABLE I. — *County Training Schools — Average Number in Schools during the Years 1928-1932*

	1928	1929	1930	1931	1932
Essex County Training School	97.4	81.4	92.7	84.0	85.0
Hampden County Training School	44.0	49.0	43.0	26.0	23.6
Middlesex County Training School	89.1	94.7	103.0	96.0	83.0
Norfolk, Bristol and Plymouth Union Training School	30.9	29.0	25.3	21.6	20.8
Worcester County Training School	34.2	38.4	33.0	29.2	24.0
Totals	295.6	292.5	297.0	256.8	236.4

Table II shows the numbers and the movement of the population in these institutions for the fiscal year ending December 31, 1932, and also the average weekly per capita cost of maintenance, \$15.84, subtracting all receipts from private sources.

As will be seen from Table II there were 366 children in the five schools during 1932. The year opened with 257. In the succeeding twelve months 109 were admitted and 149 were discharged, leaving 217.

The average age of the children at the time of their admittance was thirteen years, eleven months, nineteen days. Every child must be discharged, by requirements of the statute, upon reaching the age of sixteen.

TABLE II. — *County Training Schools — Number and Movement of Population*

SCHOOL	NUMBER IN SCHOOL DURING THE YEAR						Main- tenance of Schools (Average Weekly per Capita Cost)
	Whole Number	Average Number	On Jan. 1, 1932	Admitted	Released or Dis- charged	Remain- ing on Dec. 31, 1932

Totals	366	236.4	257	109	149	217	\$15 84

LICENSED BOARDING HOMES FOR AGED PERSONS

FRANCIS BARDWELL, *Supervisor*

Under General Laws, chapter 121, section 22A, inserted by Acts of 1929, chapter 305, providing that "whoever maintains a home in which three or more persons over the age of sixty years, and not members of his immediate family are provided with care, incident to advanced age, shall be deemed to maintain a boarding home for aged persons," this Department is delegated to issue licenses and to make, alter, and amend rules and regulations for the government of such homes.

During the past year 73 applications for licenses have been received; 100 new licenses have been issued; 126 licenses have been renewed; and 42 licenses have been cancelled. There are at present 231 licenses in force in 76 cities and towns.

On July 20, 1932, the following policies relative to boarding homes for the aged were adopted by the Advisory Board:

1. No person ill with contagious disease shall be admitted to a boarding home for aged persons.

2. No boarding home for aged persons shall admit confinement cases.
3. Every bedroom or dormitory shall be so arranged that at least fifty square feet of floor space shall be allotted to a bed.
4. No patients cared for under this law shall occupy sleeping rooms on the second floor of any building which has not two exits from said second floor consisting of two stairways or one stairway and a fire escape.
5. In any new establishment no persons over sixty years of age cared for under this law shall occupy sleeping rooms above the second floor if the building is not of first-class, fire-proof construction. Existing establishments shall conform to this standard as rapidly as practicable.
6. Reasonable constraint in some cases is necessary, but no patient shall be kept behind locked doors.

Since the adoption of these policies the Department has found it necessary to issue orders in six homes to have patients over sixty removed from the third floor. In twelve homes there were found to be patients behind bolted doors. These bolts were removed by order of the Department. Complaints regarding boarding homes for aged have been received and thoroughly investigated. Some of these were found to be justified and warnings have been issued to the license holder.

The Department has tried to bring about co-operation among the license holders so that uniform regulations are in force throughout the state.

The local building authorities co-operate by inspecting and approving buildings to be used for convalescent homes. A license is not granted unless the home to be used conforms with the requirements of the local building department.

The Department maintains an index of licensed homes by localities, prices, and names of people maintaining the homes. This has been found helpful to many people as well as to local welfare boards. The homes range in price from \$7 a week to over \$100 a week.

During the past year 721 visits were made in the homes.

SUPERVISION OF THE SETTLED POOR RELIEVED OR SUPPORTED BY CITIES AND TOWNS

General Laws, chapter 117, sections 3, 36, 37 and 38, and chapter 121, section 16, provide that the Department of Public Welfare may visit and inspect all places where city or town poor are supported in families, and require the Department to visit, at least once a year, not only all children who are maintained by the Commonwealth, but all minor children who are supported at the expense of any city or town. Children illegally retained in city or town infirmaries must be removed therefrom and placed at board at the expense of the city or town concerned.

THE SETTLED ADULT POOR PROVIDED FOR IN FAMILIES

Of the 182 adult persons reported by local authorities as fully supported in families on January 1, 1932, 9 had died, and 17 had been removed before visits were made. The remaining 156 — 90 men and 66 women — were all visited and reported on by the Department's agents. They were supported by 84 cities and towns as follows:

Abington, 2	Gardner, 1	Merrimac, 1	Savoy, 1
Ashland, 2	Goshen, 1	Millbury, 1	Scituate, 2
Attleboro, 1	Great Barrington, 6	Millville, 2	Southwick, 2
Auburn, 3	Hancock, 2	Monterey, 1	Stoughton, 2
Baldwinville, 1	Hanover, 1	Needham, 3	Stoneham, 1
Barnstable, 1	Hayley, 1	New Marlborough, 2	Tyringham, 1
Braintree, 2	Heath, 1	Newburyport, 3	Walpole, 1
Buckland, 2	Hopedale, 1	North Attleborough, 1	Watertown, 3
Burlington, 1	Hopkinton, 1	Northborough, 2	Webster, 2
Carver, 1	Kingston, 4	Norwood, 3	Wellesley, 2
Cheshire, 4	Lakeville, 1	Orange, 4	Wellfleet, 1
Chicopee, 1	Lancaster, 1	Otis, 1	Westford, 2
Danvers, 6	Lee, 3	Palmer, 3	West Newbury, 1
Dighton, 1	Lenox, 1	Peabody, 1	West Springfield, 7
Dudley, 3	Leverett, 1	Phillipston, 1	Weston, 1
Easthampton, 2	Leyden, 1	Pittsfield, 1	Weymouth, 2
Edgartown, 1	Ludlow, 2	Quincy, 1	Williamstown, 1
Egremont, 1	Lunenburg, 1	Raynham, 1	Whitman, 5
Falmouth, 1	Medfield, 2	Revere, 1	Winthrop, 1
Florida, 1	Medway, 2	Russell, 2	Woburn, 5
Foxborough, 3	Mendon, 1	Salisbury, 2	Yarmouth, 1

Their ages were as follows: 5 between 21 and 30; 2 between 30 and 40; 16 between 40 and 50; 44 between 50 and 60; 77 between 60 and 70; 9 between 70 and 80; and 3 between 80 and 90.

For their support there was paid in 8 cases from \$2 to \$3 per week; in 14 cases from \$3 to \$4 per week; and in 134 cases — mostly of old and feeble persons — the rate varied from \$4 to \$20 per week according to the amount of care required.

Of the whole number, 74 were reported to be in good or fairly good physical condition, and 128 in good or fairly good mental condition. In all cases they were apparently receiving good care. There were 55 able to do light work either in the house or about the premises. In 81 cases, according to the reports the members of the local board of public welfare complied with the law requiring them to visit these persons at least once in every six months; in 38 cases they were visited once during the year; and in 37 cases they were not visited at all.

DEPENDENT MINOR CHILDREN WITH SETTLEMENT PROVIDED FOR IN INFIRMARIES

Visits were made to 115 children — 57 boys and 58 girls — reported to be cared for by the following cities and towns in their infirmaries:

Andover, 1	Dedham, 1	Lowell, 3	Quincy, 2
Beverly, 1	Fall River, 10	Lynn, 1	Springfield, 4
Boston, 67	Haverhill, 3	Malden, 2	Stoneham, 1
Cambridge, 1	Holyoke, 5	Methuen, 1	Uxbridge, 2
Charlton, 1	Ipswich, 1	Newton, 1	Worcester, 5
Chicopee, 1	Lawrence, 1		

In addition to this number 90 had been removed from the infirmaries before the time of visitation. Of the number visited, 42 were so defective in either mind or body as to make their retention in an infirmary desirable.

DEPENDENT MINOR CHILDREN WITH SETTLEMENT PROVIDED FOR OUTSIDE INFIRMARIES

As shown by the department's visitation of the 1,758 children reported by the authorities as fully supported outside the infirmaries on January 1, 1932, and July 1, 1932, 112 had been removed before visits could be made, 2 had died, and 3 were supporting themselves. The remaining 1,641 — 926 boys and 715 girls — were supported by 119 cities and towns as follows:

Acushnet, 1	Enfield, 1	Middleborough, 19	Shrewsbury, 1
Adams, 23	Erving, 3	Millford, 4	Shutesbury, 1
Agawam, 4	Fairhaven, 12	Millbury, 1	Somerset, 1
Ashburnham, 2	Falmouth, 9	Milton, 2	Somerville, 7
Ashland, 3	Fitchburg, 7	Montague, 3	Southborough, 3
Athol, 2	Framingham, 3	Nahant, 1	Southbridge, 4
Attleboro, 9	Franklin, 1	Natick, 25	Southwick, 4
Auburn, 5	Gill, 3	Needham, 3	Spencer, 5
Barnstable, 2	Greenfield, 6	New Bedford, 41	Springfield, 4
Barre, 5	Hampden, 1	Newburyport, 2	Stoneham, 1
Belmont, 2	Hanover, 2	North Attleborough, 5	Stoughton, 7
Beverly, 3	Hanson, 3	North Brookfield, 2	Stow, 2
Billerica, 2	Hingham, 5	Northborough, 4	Taunton, 4
Boston, 868	Hubbardston, 2	Norton, 1	Walpole, 1
Braintree, 7	Hudson, 4	Norwood, 4	Wareham, 3
Bridgewater, 3	Hull, 1	Orange, 1	Warren, 3
Brockton, 15	Kingston, 1	Palmer, 7	Watertown, 8
Brookline, 4	Lancaster, 2	Paxton, 1	Webster, 11
Buckland, 3	Lawrence, 9	Peabody, 2	Wellfleet, 1
Cambridge, 28	Leicester, 1	Pepperell, 5	West Boylston, 1
Chelmsford, 4	Leominster, 2	Pittsfield, 7	West Springfield, 2
Chelsea, 2	Leverett, 2	Plainville, 3	Westfield, 1
Chicopee, 12	Lincoln, 3	Plymouth, 4	Westport, 1
Clinton, 11	Lynn, 1	Quincy, 9	Weymouth, 12
Concord, 2	Malden, 4	Rochester, 7	Whitman, 2
Dartmouth, 3	Marblehead, 8	Rockland, 9	Williamstown, 2
Deerfield, 3	Marlborough, 2	Rowley, 2	Winchendon, 6
Dennis, 3	Medford, 3	Russell, 2	Windsor, 1
Dudley, 1	Melrose, 1	Salem, 24	Winthrop, 3
Easthampton, 4	Methuen, 1	Saugus, 11	Worcester, 189

Of the whole number 60 were cared for and treated in hospitals and institutions. There were 1,250 who attended school, and 284 who did more or less work about the house. Of the whole number 1,561 were in good or fairly good physical condition, and 1,593 in good or fairly good mental condition. The price of board varies from \$2 to \$6 per week. These children were found to be well cared for with a few exceptions, which have been brought to the attention of the local overseers.

THE PENALTY INCURRED BY CERTAIN CITIES AND TOWNS FOR FAILURE TO MAKE THEIR RETURNS OF POOR RELIEF DURING THE MONTH OF APRIL, 1932

Under sections 32-35 of chapter 117 of the General Laws, the Department reported to the Treasurer of the Commonwealth the names of the cities and towns which failed to make their returns of poor relief during the month of April, 1932, together with the amount of penalty incurred in each instance as follows: Adams, \$5; Amherst, \$5; Ashburnham, \$4; Ashby, \$3; Attleboro, \$3; Avon, \$1; Ayer, \$9; Bedford, \$5; Blackstone, \$3; Blandford, \$79; Brewster, \$30; Charlton, \$1; Chelmsford, \$17; Cheshire, \$5; Chester, \$244; Chesterfield, \$10; Chilmark, \$38; Clinton, \$32; Dennis, \$8; Douglas, \$2; Falmouth, \$5; Freetown, \$6; Gay Head, \$8; Granville, \$13; Hanover, \$172; Hanson, \$11; Harvard, \$2; Harwich, \$9; Haverhill, \$174; Holbrook, \$12; Holden, \$8; Hopkinton, \$8; Hubbardston, \$1; Huntington, \$45; Lanesborough, \$22; Lawrence, \$57; Leverett, \$43; Leyden, \$11; Longmeadow, \$20; Lowell, \$71; Lynn, \$53; Lynnfield, \$6; Malden, \$54; Mansfield, \$3; Monson, \$3; Nahant, \$25; New Marlborough, \$16; Newbury, \$30; North Adams, \$4; North Reading, \$5; Oxford, \$3; Princeton, \$218; Provincetown, \$6; Quincy, \$3; Rochester, \$1; Rowe, \$5; Shrewsbury, \$32; Southwick, \$190; Stoughton, \$2; Stow, \$5; Swansea, \$4; Tewksbury, \$3; Tisbury, \$37; Tyringham, \$9; Uxbridge, \$4; Wakefield, \$2; Wales, \$5; Watertown, \$4; Wayland, \$2; Wendell, \$1; Westborough, \$206; Wilbraham, \$5; Williamstown, \$2; Woburn, \$30. Total, \$2,180.

Worcester and Fall River have not as yet completed their returns.

In addition to the above, the following cities and towns have made their returns for 1931, with the amount of penalty for each: — Freetown, \$366; Princeton, \$584; Westborough, \$199; Worcester, \$343.

LAWS AFFECTING THE DEPARTMENT PASSED BY THE LEGISLATURE OF 1932

CHAP. 159. — AN ACT RELATIVE TO THE EDUCATION OF CERTAIN PHYSICALLY HANDICAPPED CHILDREN

Section forty-six A of chapter seventy-one of the General Laws, inserted by chapter three hundred and sixty-eight of the acts of nineteen hundred and thirty, is hereby amended by striking out, in the fifth and seventh lines, the word "crippled" and inserting in place thereof, in each instance, the words: — physically handicapped, — so as to read as follows: — *Section 46A.* The school committee of every town shall annually ascertain, under regulations prescribed by the department and the commissioner of public welfare, the number of children of school age and resident therein who are physically handicapped. In any town where, at the beginning of any school year, there are five or more children so physically handicapped as to make attendance at a public school not feasible, and who are not otherwise provided for, the school committee shall, and in any town where there are less than five such children may, employ a teacher or teachers, on full or part time, who shall, with the approval in each case of the department and the said commissioner, offer instruction to said children in their homes or at such places and under such conditions as the committee may arrange. [*Approved April 14, 1932.*]

CHAP. 206. — AN ACT INTERPRETATIVE OF CERTAIN PROVISIONS OF LAW RELATIVE TO THE VOTING RIGHTS OF PERSONS RECEIVING CERTAIN FORMS OF PUBLIC AID.

Section one of chapter fifty-one of the General Laws, as most recently amended by section one hundred and sixty-eight of chapter four hundred and twenty-six of the acts of nineteen hundred and thirty-one, is hereby further amended by adding at the end thereof the following new paragraph: —

No person who actually supports himself and his family shall be deemed to be a pauper under this section by reason of the commitment of his wife, child or other relative to a state hospital or institution of charity, reform or correction by order of a court or magistrate, and of his inability to maintain such person therein; or who, to the best of his ability, has attempted to provide for himself and his dependents and has not been a mendicant, and who, through no crime or misdemeanor of his own, has come into grievous need and receives aid or assistance given tem-

porarily, or partial support continuously, to him or his family, or who receives assistance under the provisions of chapter one hundred and eighteen A. [Approved May 10, 1932.]

CHAP. 259. — AN ACT RELATIVE TO THE FURNISHING OF ADEQUATE ASSISTANCE TO CERTAIN AGED CITIZENS

Whereas, The deferred operation of this act would tend to defeat its purpose, therefore it is hereby declared to be an emergency law, necessary for the immediate preservation of the public convenience.

SECTION 1. Section one of chapter three hundred and ninety-eight of the acts of nineteen hundred and thirty-one is hereby amended by striking out, in the second line, the word "and" the first time it occurs and inserting in place thereof a comma, — and also by inserting after the word "thirty-two" in the same line the words: — and nineteen hundred and thirty-three, — so as to read as follows: — *Section 1.* In each of the years nineteen hundred and thirty-one, nineteen hundred and thirty-two and nineteen hundred and thirty-three, an old age assistance tax of one dollar shall be assessed on every male inhabitant of the commonwealth above the age of twenty, whether a citizen of the United States or an alien. A statement of the purpose of such tax shall appear on the face of the tax bill. Nothing herein contained shall be construed to affect the poll tax authorized to be assessed by the assessors of the Shelburne Falls Fire District pursuant to the provisions of chapter two hundred and sixty-two of the acts of eighteen hundred and fifty-five, and acts in amendment thereof or in addition thereto.

SECTION 2. Said chapter three hundred and ninety-eight is hereby further amended by striking out section eight and inserting in place thereof the following: — *Section 8.* Out of the sum of two million four hundred thousand dollars, which is the estimated amount of the proceeds of the old age assistance tax imposed by section one of this act in the years nineteen hundred and thirty-one and nineteen hundred and thirty-two, cities and towns shall be reimbursed, without appropriation, on or before November thirtieth, nineteen hundred and thirty-two, as hereinafter provided by clauses (a) and (b), for assistance given by them to aged citizens under the provisions of chapter one hundred and eighteen A of the General Laws, inserted therein by section one of chapter four hundred and two of the acts of nineteen hundred and thirty, during the ten months' period ending April thirtieth, nineteen hundred and thirty-two, if accounts therefor are rendered to the department of public welfare on or before June fifteenth, nineteen hundred and thirty-two, and are approved by said department and certified by the comptroller, but not otherwise:

(a) In respect to such assistance given to persons having no settlement in the commonwealth, the total amount thereof;

(b) In respect to all other such assistance given, in the proportion that said estimated amount of the proceeds of said old age assistance tax in said years nineteen hundred and thirty-one and nineteen hundred and thirty-two less the amount to be reimbursed under said clause (a) bears to the total amount of such other assistance given by cities and towns during said ten months' period, as shown by said accounts rendered, approved and certified as aforesaid.

Out of the proceeds of said tax in the year nineteen hundred and thirty-three, and any balance of the proceeds of said tax in the years nineteen hundred and thirty-one and nineteen hundred and thirty-two, cities and towns shall be reimbursed, on or before November thirtieth, nineteen hundred and thirty-three, as provided by section three of said chapter one hundred and eighteen A, as amended, for assistance given by them as aforesaid during the twelve months ending April thirtieth, nineteen hundred and thirty-three, and for such assistance given by them during the ten months' period ending April thirtieth, nineteen hundred and thirty-two, for which reimbursement has not been made under clause (a) or clause (b) aforesaid, if accounts therefor are rendered, approved and certified as aforesaid prior to April thirtieth, nineteen hundred and thirty-three.

SECTION 3. Chapter one hundred and eighteen A of the General Laws, inserted by section one of chapter four hundred and two of the acts of nineteen hundred and thirty, is hereby amended by striking out section three and inserting in place thereof the following: — *Section 3.* In respect to all aged persons in

receipt of assistance under this chapter, the town rendering the assistance shall be reimbursed by the commonwealth for one third of the amount of assistance given, or, if the person so aided has no settlement in the commonwealth, for the total amount thereof. If the person so aided has a legal settlement in another town, two thirds of the amount of such assistance given may be recovered in contract against the town liable therefor in accordance with chapter one hundred and seventeen. All accounts against the commonwealth for allowances to cities and towns on account of moneys paid for which they are entitled to reimbursement by the commonwealth hereunder shall be rendered to the department on or before June fifteenth annually, and shall be for the twelve months ending on the thirtieth day of April preceding, and, if rendered as aforesaid, approved by the department and certified by the comptroller but not otherwise, shall be paid by the commonwealth. [Approved May 27, 1932.]

CHAP. 6. — RESOLVE PROVIDING FOR AN INVESTIGATION RELATIVE TO COUNTY TRAINING SCHOOLS.

Resolved, That the commissioner of public welfare, the commissioner of public health, the commissioner of education, the commissioner of mental diseases, the chairman of the commission on administration and finance and the county personnel board, acting jointly, are hereby authorized and directed to investigate and ascertain whether the facilities provided by county training schools are now being fully made use of, and if not, for what other purposes the same might be conveniently and advantageously used. Said joint board shall report to the general court its findings, and its recommendations, if any, together with drafts of legislation necessary to carry the same into effect, by filing the same with the clerk of the house of representatives on or before December first in the current year. [Approved April 11, 1932.]

CHAP. 14. — RESOLVE REVIVING AND CONTINUING THE SPECIAL COMMISSION ESTABLISHED TO STUDY AND REVISE THE LAWS RELATIVE TO ZONING, TOWN PLANNING AND THE REGULATION OF BILLBOARDS AND OTHER ADVERTISING DEVICES.

Resolved, That the special unpaid commission, established by chapter thirty-one of the resolves of nineteen hundred and thirty-one to study and revise the laws relative to zoning, town planning and the regulation of billboards and other advertising devices, is hereby revived and continued, and the final report of said commission, together with drafts of legislation necessary to carry its recommendations into effect, shall be filed with the clerk of the house of representatives on or before the first Wednesday in December in the current year.

For said purposes, the commission may expend, with the approval of the governor and council, such sum, not exceeding fifteen hundred dollars, as the general court may hereafter appropriate, in addition to the unexpended balance of the amount appropriated by item thirty-sixth of chapter four hundred and sixty of the acts of nineteen hundred and thirty-one. [Approved May 3, 1932.]

CHAP. 31. — RESOLVE PROVIDING FOR AN INVESTIGATION BY THE COMMISSIONER OF PUBLIC WELFARE RELATIVE TO THE ADVISABILITY OF REDUCING THE MINIMUM AGE OF PERSONS ENTITLED TO ASSISTANCE UNDER THE OLD AGE ASSISTANCE LAW, SO CALLED.

Resolved, That the commissioner of public welfare is hereby directed to investigate the probable cost to the commonwealth and to the cities and towns thereof, resulting from reducing the age now required by law to secure old age assistance as petitioned for by current house documents numbered sixteen, two hundred and eighty-three, three hundred and twenty-seven, three hundred and ninety-two, six hundred and seventy-four and eight hundred, and the advisability thereof. The commissioner shall report the results of his investigation and his recommendations, with drafts of such legislation as may be necessary to give effect thereto, by filing the same with the clerk of the house of representatives not later than the first Wednesday in December in the current year. [Approved May 16, 1932.]

CHAP. 35. — RESOLVE PROVIDING FOR AN INVESTIGATION AND STUDY RELATIVE TO THE QUESTION OF THE PAYMENT OF ACCOUNTS AGAINST THE COMMONWEALTH FOR ALLOWANCES TO MUNICIPALITIES ON ACCOUNT OF MONEYS PAID FOR WHICH THEY ARE ENTITLED TO REIMBURSEMENT UNDER EXISTING LAWS.

Resolved, That the commission on administration and finance, the commissioner of public welfare and the commissioner of state aid and pensions, acting jointly, are hereby authorized and directed to investigate and study the question of the payment of accounts against the commonwealth for allowances to cities and towns on account of moneys paid for which they are entitled to reimbursement under existing laws, including the subject matter of so much of the address of his excellency, the governor, printed as current senate document number one, as relates to said question, and of current senate document number two hundred and forty-six and current house documents numbered four hundred and sixty-four and seven hundred and eighteen. Said joint board shall report to the general court the results of its investigation and study, and its recommendations, if any, together with drafts of legislation necessary to carry the same into effect, by filing the same with the clerk of the house of representatives on or before the first Wednesday in December in the current year. [*Approved May 18, 1932.*]

An important veto message is herewith appended:

THE COMMONWEALTH OF MASSACHUSETTS,
EXECUTIVE DEPARTMENT, BOSTON, May 24, 1932.

To the Honorable Senate and House of Representatives:

I am herewith returning without my approval Senate Resolve 4 entitled, "Resolve to reimburse Leon J. Allen of Upton for Loss of Certain Property taken by a State Minor Ward."

I cannot see any reason why the State should obligate itself to guarantee the integrity of a State ward any more than it should obligate itself to guarantee the integrity of a released prisoner out on parole. It is true that the sum of money involved is trivial, but the principle involved is important.

For these reasons, the bill is returned without my approval.

JOSEPH B. ELY.

PAST MEMBERS OF THE STATE BOARD OF CHARITY AND THE ADVISORY BOARD OF THE DEPARTMENT OF PUBLIC WELFARE

In this Department the service of unpaid Board members has always been of great value. It is the custom to record this service in the annual report.

PART II

PRIVATE CHARITABLE CORPORATIONS

RICHARD K. CONANT, *Commissioner*

Supervisors

MISS FLORENCE G. DICKSON

MISS ALICE M. MCINTIRE

MISS MARY C. ROBINSON

Government supervision of private charitable corporations is provided in three legislative enactments, the first of which requires the Department of Public Welfare to investigate all applications for charitable charters, while the second and third call for annual inspection and annual reporting. In the following pages of this part of the report the functions of the department and the year's work under these several statutes are explained. This statement is followed by a tabulation of some of the essential figures showing the financial condition and the number of persons aided by the various charities.

Investigation of Charitable Organizations Seeking Incorporation

During the year ending November 30, 1932, 50 applications for charters have been referred to this department by the Secretary of the Commonwealth for investigation under General Laws, chapter 180, section 6. In 1 case the application was withdrawn from this department before the hearing. One (1) case is pending action of the Secretary of State at the end of the year. Eight (8) cases are pending action of this department at the end of the year. This department has investigated, given hearings and reported on 45 applications, including 3 received prior to the beginning of the year.

Forty-five (45) applications as listed below have been acted upon by the Secretary of the Commonwealth.

Albert N. Parlin House, Inc.
 American Irish Pioneers Foundation
 Arleen Grandberg Memorial
 Cantabs Club, The
 Cercle Saint-Louis de Centralville
 College Club of New Bedford, Inc., The
 Derazno-Volin Association
 Deutsches Altenheim, Incorporated
 Ella Clark Home for Aged People
 Emergency Planning and Research Bureau, Inc.
 Emergency Relief Committee of Fitchburg, Inc.
 Eretz Israel Aid Society
 Framingham Community Chest, Inc.
 Framingham Community Health Association, Incorporated
 Franklin County Public Health Association
 Fred Bates Morse Post No. 91, Department of Massachusetts, The American Legion, Inc.
 George F. Bryan Post, V. F. W., Building Association, Inc.
 Gloucester Unemployment Relief Committee, Inc.
 Independent Zviller Free Loan Association, Inc.
 Lenox Visiting Nurse Association
 Leominster Community Chest, Inc.
 Lithuanian Aged Peoples Aid Society, Inc.
 Maccabean Pythian Association
 Massachusetts All Nurses Post No. 296, Inc. American Legion
 Massachusetts Society for the Protection of the Mentally Infirm Inc.
 Massachusetts Tents Building Christian and Charitable Association For Women Under The Jurisdiction Of The Eastern District No. 3, The Mayor's Relief Committee Inc.
 Medford Unemployment and Relief Association, Inc.
 Memorial Hall, Inc.

Men's Club of Malden, The
 Merwin Memorial Free Clinic for Animals, Inc.
 Middleborough Relief Association Inc.
 Morgan and Dodge Home for Aged Women, The
 Naoussaion Association "St. James," The
 Newton Community Chest, Incorporated
 Newtonville Woman's Club Incorporated, The
 Quincy Visiting Nurse Association, Inc.
 Servants of Relief for Incurable Cancer, The
 Syrian Brotherhood Orthodox Society of Worcester
 Visiting Nurse Association of Hamilton and Wenham, Inc.
 Watertown Unemployment Relief Committee, Inc.
 Wessagussett Post 1399 V. F. W. Building Association, The
 Winchester Unemployment Relief Committee, Inc.
 Works Project Corporation
 Young Italians' Association of Walpole

Forty-two (42) of these applications have been acted upon and charters issued. Charters have been withheld from the following:

Cantabs Club, The
 Derazno-Volin Association
 Massachusetts Society for the Protection of the Mentally Infirm Inc.

Inspection of Charitable Corporations

General Laws, chapter 121, section 7, requires the Department of Public Welfare, upon the request or with the consent of a charitable corporation, to make annual inspection or investigation of such corporation.

One hundred fifty-one (151) inspections have been made during the past year involving numerous conferences with directors and many visits to institutions.

There have been 886 inquiries in regard to particular charities and general matters connected with the field of private charity.

Number and Classification of Incorporated Charities in Massachusetts

Of the 1,238 charitable corporations which made returns to this department during 1932, 126 are homes for the aged; 146 are child-helping agencies; 257 are hospitals or other institutions for aiding the sick; 135 are agencies giving family aid; and 176 are organizations doing community, neighborhood or club work. The remaining 398 corporations form a miscellaneous group chiefly civic or eleemosynary in their nature.

Annual Reports of Charitable Corporations

General Laws, chapter 180, section 12, provides that every charitable corporation must make to this department an annual financial return on or before the first day of November in each year, and further provides that if any corporation fails for two successive years to make the report, the Supreme Court may decree its dissolution. Figures from the financial reports of corporations for the last year are given on the following pages. The abstracts are arranged by towns in alphabetical order under each town.

An analysis of the returns made in 1932 showed the total property, real and personal, of all these charities to be \$354,945,351. The total value of real estate owned and occupied for corporate purposes, after deducting mortgages on such real estate, was \$126,192,086. Subscriptions and donations, including gifts restricted to capital, brought in \$18,417,621.00. Earnings and refunds, including receipts from beneficiaries, amounted to \$24,049,211.09. Interest, dividends, annuities and rentals brought in \$10,571,838.77. Legacies were received to the amount of \$10,660,032.77; of this sum \$2,516,552.53 was unrestricted. The current receipts were \$53,277,309.47. The current expenditures were \$50,706,801.00 of which \$20,676,079.49 was paid for salaries and wages. The agencies reported 21,529 paid employees.

Endorsement of Private Charitable Organizations

The Department of Public Welfare endorses no private charitable organization or agency. This rule is absolute, regardless of the known standing of any such society. Inspection and the publication of the annual return in this volume do not mean approval; on the contrary, inspection may mean the discovery of conditions calling for condemnation. No agency is warranted, therefore, in using the fact of inspection in such manner as to lead the public to believe that the department approves or in any sense commends its work.

⁸ Total includes: 2,615,089 individuals, 747,054 animals, 141,051 visits, 21,696 memberships, 148,718 attendance.
⁹ Total includes: 1,080,398 individuals, 652,913 animals, 17,261 visits, 288 memberships, 61,027 attendance.

PART III
THE CITY AND TOWN INFIRMARIES
AND
STATISTICS OF POOR RELIEF

Part III will be published separately. Several more months are required for the tabulation of the statistics of the very large number of persons aided by cities and towns this year.

ANNUAL REPORT

OF THE

Mass. DEPARTMENT

OF

PUBLIC WELFARE

FOR THE

YEAR ENDING NOVEMBER 30, 1932

PART III

THE CITY AND TOWN INFIRMARIES
AND
STATISTICS OF POOR RELIEF

JUL 93 1922
 PART III
 STATE HOUSE BOSTON
THE CITY AND TOWN INFIRMARIES
 AND
STATISTICS OF POOR RELIEF

FRANCIS BARDWELL, *Supervising Inspector of Infirmaries*
Laws Relating to Infirmaries

(*General Laws, Chapter 47, as amended by Chapter 203, Acts of 1927*)

For the information of boards of public welfare, superintendents of infirmaries and others concerned, certain laws relating to infirmaries are here summarized.

The Department of Public Welfare is required to visit annually all city and town infirmaries, and to include in its annual report a statement of their condition and management, with its suggestions and recommendations relative thereto. (General Laws, ch. 121, sect. 7.)

The superintendent of every infirmary must keep a register, in the form prescribed by the Department of Public Welfare, of the names of the persons received or committed, the cities or towns to which they belong, and the dates of their reception and discharge. (General Laws, ch. 47, sect. 8.)

Every inmate of an infirmary able to work shall be kept diligently employed in labor. If he is idle and does not perform such reasonable task as is assigned, or if he is stubborn and disorderly, he shall be punished according to the orders and regulations established by the directors. (General Laws, ch. 117, sects. 21 and 22. See also opinion of Attorney-General given to State Board of Charity, November 21, 1904.)

The only children who can be lawfully supported in a city or town infirmary for a period of more than two months are: (1) those who are so defective in body or mind as to make their retention in an infirmary desirable; (2) those who are under two years of age; and (3) those who are under three years of age, with mothers who are infirmary inmates and suitable persons to aid in taking care of them. In cases of failure of boards of public welfare to remove children illegally in infirmaries, the Department of Public Welfare is required to remove them and provide for them otherwise, at the expense of the city or town concerned. (General Laws, ch. 117, sects. 36-38.)

Provision is made that tramps and vagrants, as well as criminals, shall be confined in separate and distinct quarters in all infirmaries and shall not be permitted to associate or communicate with other inmates. It should be noted also that tramps and vagrants, if physically able, shall perform labor of some kind, and shall be lodged under conditions prescribed by the State Department of Public Health. (General Laws, ch. 117, sect. 20.)

The Department of Public Welfare is authorized to advise with and assist local boards of public welfare in preparation of plans for infirmary buildings. (General Laws, ch. 121, sect. 38.)

Inspection of Infirmaries

As required by law, every infirmary has been visited once by the Department's inspector. Six have been visited twice and 1 three times. Conferences have been held with various municipal officers — mayors of cities, local boards of public welfare, and special committees — and architects concerning matters of importance relative to the management and administration of infirmaries or for the discussion of improvements or new construction. There are in Massachusetts 122 infirmaries which cared for 11,620 inmates during the past municipal year.

Infirmaries Closed

Because of a serious fire at the North Attleborough Infirmary, the building was closed for necessary repairs and renovations. One of the town's people generously placed a comfortable house at the disposal of the Board of Public Welfare and the inmates were removed to this residence immediately and remained there until repairs on the infirmary were completed.

There has been no permanent closing of any municipal infirmary.

Construction — New and Contemplated

Holyoke. — To increase the facilities of the institution so as to provide for the influx of inmates.

Recommendations Made

Braintree. — Because of crowded conditions for the inmates, it is recommended that the large room on the first floor be used for their accommodation as the present accommodations make it necessary for inmates to be housed on the third floor. Also, that there be a competent woman appointed to help in the kitchen and service quarters.

Chelmsford. — That other provision than using the attic for inmates be made as it would be difficult to have them removed in case of fire; that other provisions be made for storing flour as it is now in one of the inmate's rooms.

Duxbury. — That the district nurse be called in when necessary to look after the sick patients and be paid at the regular rate paid district nurses.

Fitchburg. — A suggestion that modern laundry equipment be put in, a washing machine, and an extractor and that a new steel ceiling and a new floor be put in the kitchen.

Gloucester. — That something be done in regard to the poor condition of the infirmary as the inmates are now housed in a wooden building in very bad repair.

Holyoke. — That the infirmary be enlarged or improved to accommodate the increasing number of inmates; at the present time there is insufficient room in the men's quarters.

Milton. — That the children now at the infirmary be provided for outside.

Methuen. — Recommend that other provisions be made for the inmates who are now being housed on the third floor as there is inadequate egress from that section of the house.

North Adams. — That the infirmary be provided with proper laundry facilities, a washing machine, an extractor and an iron or mangle.

Northbridge. — That temporary dormitories for men be provided at the present time to house all the inmates; suggestion is made that they use some small building as a portable schoolhouse properly equipped with heat and ventilation.

Oxford. — That the south side of the inmates' ell be shingled.

Pembroke. — That a warden and matron be appointed to take care of the town infirmary due to the increase in number of inmates, and the care of the farm.

Wakefield. — That the infirmary be continued as present conditions seem to indicate an increasing number of poor in all towns and suitable accommodations be provided for the inmates.

Improvements

Amesbury, new hardwood floors, new plastering and plumbing in the inmates' quarters, new drinking cups for cows. Athol, small greenhouse, plastering in two rooms. Attleboro, inside painting. Ayer, electric lights in inmates' rooms. Barnstable, house and barn shingled. Billerica, milk cooler. Long Island Hospital, Boston, new recreation building with every modern and up-to-date conveniences: reading room, card room, and large auditorium with state equipment for talking movies, and a beautiful piano for entertainments. Charlton, the addition of seven rooms for the inmates and a shower bath, barn and shed shingled, a screened-in porch on the new ell, and a new hot water system. Chicopee, new wood shed 50 x 20, new store house 18 x 15, new gas range, and coal range. Duxbury, two new bathrooms, one upstairs and one downstairs. Easthampton, a new hot water heater. Fairhaven, a new boiler. Gardner, new beds, mattresses, and blankets, and a new washing machine. Grafton, raised and shingled the shed roof. Greenfield, shingled the house, screened and glassed-in the piazzas. Hanover, two new bathrooms, one for inmates and one for warden. Hanson, renovated the interior. Harwich, house painted. Haverhill, new hardwood floors, bath tub and lavatory in the bathroom, new wash sinks in men's lavatory, new set boiler and sink in basement kitchen, and a new gas toaster in the main kitchen. Hingham, painting inmates' quarters. Holyoke, ice house and corn crib painted, interior of main building renovated, and general reconditioning of all floors, large wardrobe for men built in basement, new showers put in male wards. Ipswich, three halls covered with linoleum. Lawrence, building painted inside and outside, extra bed space provided, and a radio in every department. Malden, completed six rooms,

cemented walks and the cellars, made a new vegetable cellar. Manchester, a new boiler for the kitchen. Mansfield, interior painting and new ceilings. Marblehead, inside painting. Medford, new ceilings and linoleum. Methuen, new electric stove and mangle. Milford, new oil burner. Monson, ten rooms done over thoroughly, five new beds, and a new fence for the pasture. Natick, house painted inside and outside by unemployed. New Bedford, men's hospital made into one large room with new floors, an extra room put on as a men's dining room. Newton, painted rooms and blinds, shingled roof. North Andover, new floors in the barn and inside painting. Norwell, new linoleum for halls and kitchen and three new mattresses. Peabody, barns painted and land improved, work being done by unemployed. Pittsfield, complete rewiring, new commercial frigidaire, new linoleum for halls, new kitchen range, new barn and smokehouse, and a new toilet and lavatory in upper dormitory. Provincetown, new fire escapes. Quincy, new frigidaire. Rockland, new hot water heater and frigidaire, new fire alarm system, barn shingled, and bedrooms papered and painted. Rockport, new bathroom for the warden. Somerville, new washing machine, new water main, and piping, new greenhouse, necessary reroofing, and new chimneys. South Hadley, a new shed and house painted inside and outside. Spencer, all buildings painted on the outside, a new hay barn and a new Chevrolet truck. Springfield, City Home building has been entirely repainted on the outside, new fire escapes, additional spacing for inmates provided by the conversion of store rooms into dormitories, and a small wooden building has been attached to the hospital department which will accommodate 24 additional beds, a new fire alarm system has been installed, and a complete new heating system has been placed in the lower plant to provide steam heat for the laundry, and a storage tank has also been installed. Stoneham, new electric refrigerator. Sturbridge, house painted on the outside. Uxbridge, five new beds and smoking room. Ware, inside painting. Watertown, infirmary removed and remodeled at a cost of \$35,000. Webster, new electric stove. Westfield, three new asbestos roofs. Westford, papered and painted practically the whole house, new chicken house, new gas range and heater were installed. Woburn, house painted and installed new boiler. Worcester, house painted and repaired, ventilators for cow barns, a wash room, a concrete piazza, and gas stove. Wrentham, renovated dormitories.

Infirmary Visitors

The infirmary visitors are local residents, giving their services under the Commissioner's appointment. Those in office now are: Adams, Mrs. H. E. Davis; Andover, Mrs. Frank L. Brigham; Athol, Miss Hattie M. French; Boston, Miss Theresa M. Lally; Easthampton, Mrs. M. J. O'Neil; Easton, Mrs. Myrtle A. Spooner; Fall River, Mrs. Joseph E. Barre; Fitchburg, Mrs. T. R. Shea and Mrs. E. B. Crocker; Gloucester, Mrs. J. E. Anderson; Greenfield, Mrs. Henry F. Nash; Holyoke, Mrs. John M. James; Lancaster, Miss Mary Belle Bailey; Lawrence, Mrs. Lewis A. Foye; Malden, Mrs. Harvey L. Boutwell, Mrs. Catherine A. Lovejoy, and Mrs. Ellen Woolfsan; Manchester, Mrs. George L. Porter; Marlborough, Mrs. L. H. Tourtellotte; Milton, Mrs. William H. Sias; Monson, Mrs. Herbert M. Smith; Montague, Mrs. Richard R. Lyman; Nantucket, Mrs. Josephine S. Brooks and Miss Ella F. Sylvia; Natick, Mrs. James E. White; Newburyport, Mrs. Frederick Tigh; Newton, Mrs. Winnifred W. Hills and Mrs. Arthur W. Chamberlain; North Adams, Mrs. Lida A. Kimball and Miss Ione Northrup; Northampton, Miss Clara C. Allen; North Attleborough, Mrs. George A. Livingston; Pittsfield, Mrs. Southard and Miss Frances D. Robbins; Provincetown, Mrs. Ruth S. Snow; Randolph, Mrs. Daniel F. Flynn; Somerville, Mrs. Marguerite E. Kauler; Springfield, Mrs. Wendell S. Mowry and Mrs. Mildred T. Parsons; Waltham, Mrs. Pryor Fulton; Ware, Mrs. Andrew Campion; Warren, Mrs. Edna Deland; Winchendon, Mrs. John P. Bartlett and Mrs. Frank B. Spalter; Worcester, Miss Nellie E. Barrett and Mrs. Charles F. Darling.

Reports from Infirmarys

Tabulated information relating to the various infirmaries follows. There has been a reorganization of the Charlton Town Farm Association, twenty-four towns now being united in this joint infirmary. A list of these towns will be found in the tabulation.

STATISTICS OF POOR RELIEF

NUMBERS RELIEVED

The following information covers public relief, whether rendered in institutions or outside, and aid rendered by all public agencies, whether State or local.

The tables given below are arranged to show numbers relieved and their analysis by age, sex and nativity. The tabulations are concluded by figures for cost of all relief.

Table I shows the number supported or relieved by the several cities and towns during the year beginning April 1, 1931, and ending March 31, 1932. All persons are included, regardless of settlement. The total number receiving aid in any form, exclusive of vagrants and wayfarers, was 407,669. Of this number, 15,123 were aided in institutions and 392,546 — the remainder — outside, either in private families or in their own homes. Of the persons aided in institutions, 9,632 were relieved in the various city and town infirmaries, leaving 5,491 who were cared for in other institutions. It should be noted that certain cities which have city hospitals have not reported persons aided therein under "poor relief." To include these would add approximately 45,000 to the persons aided in "other institutions." Of the outside aid, 11,929 cases were aided in private families other than their own, while 380,617 were reported as having been aided in their own homes. This last figure comprises practically all city and town aid usually known as local public outdoor relief, including that under Chapter 118 of the General Laws.

There is an increase of 1,283 over the preceding year in the number aided in institutions, and an increase of 131,192 in the number aided outside, 14,358 being Old Age Assistance cases.

Table II supplies the same data for persons aided or relieved by the Commonwealth as shown in Table I for local relief. In addition to aid rendered directly by the Commonwealth, this table includes also all those cases included in Table I, in which the relief has been rendered by cities and towns in the first instance and reimbursed by the Commonwealth as required by law. This table shows 96,854 persons aided by the Commonwealth, an increase of 30,966 over 1931. Of this number, the aid in 91,890 cases was first rendered by the several cities and towns. The remaining 4,964 cases were aided by the Commonwealth; 4,082 of them at the State Infirmary; 155 in the Infirmary Ward at the State Farm; and 727 at the Massachusetts Hospital School.

Table III affords a rapid glance at the movement of population in the dependent group during the year under analysis. Thus it appears that 190,278 cases represented approximately the total number of persons receiving aid April 1, 1931. About 76 per cent of these were receiving aid locally. During the year 222,355 new cases were admitted to relief; 23 per cent of this figure were aided either directly or through reimbursement by the Commonwealth. The persons who passed out of care during that same period number 89,760; viz., city and town cases, 71,055; state cases, 18,705. Those in this total released by death number 3,326 and 3,587 persons were transferred. At the close of the year, therefore, the cities and towns had 244,724 persons in receipt of relief, and the Commonwealth had 78,149, making a total of 322,873.

Table IV begins classification of the whole number of persons aided, and shows the analysis by color, nativity, and sex. Of the 412,633 persons so aided, 206,147 were males and 206,486 females. The colored races furnished only 9,376 of the whole number. The native-born whites — 308,111 — number more than three times the foreign-born of the white races, the 93,102 of this latter group representing a proportionate increase of 50 per cent over last year. The males of the total native-born outnumber the females by only 1.6 per cent, while of the total foreign-born the females outnumber the males by 6 per cent.

Table V gives a further interesting analysis of the native-born persons aided during the year classified by parent nativity.

The parents of 108,842 were both native; 127,395 were children of foreign-born parents; 58,205 were of parents one of whom was foreign-born or unknown; while the nativity of parents in 26,070 cases remained unascertained. It appears, therefore, that of the 412,633 persons receiving aid in Massachusetts in the year

ending March 31, 1932, there were at least 221,705 who were either foreign-born or were of the first generation in our citizenship.

By Table VI it appears that of the 412,633 cases aided, 37,362 were under five; 154,862 were under fifteen; 200,796, or 48.6 per cent, including the above, were under twenty; 163,282, or 39.5 per cent, were between twenty and sixty; and 45,072, or 10.9 per cent, were over that age. The ages of 3,483 were unknown.

Among the poor persons relieved are always a considerable number of mental defectives who for one reason or another have not been committed and are therefore not cared for in the special institutions, such as the asylums for the insane, maintained for that purpose. In regard to this class it is to be noted further that since no court has passed upon their mental condition, their classification here is made only because, in the opinion of the respective authorities making the returns, there is no doubt of their defect. Table VII affords a rough classification into three groups, according to the nature of the defect, and a division by sex. The total number thus cared for was 317, namely 181 males and 136 females. Two hundred eighty-two (282) of these cases were relieved by the cities and towns; the remaining 35, having no settlement were aided at the expense of the Commonwealth. One hundred fifty-four (154) of the whole number were classed as "insane," mostly the senile and mildly insane to be found in the infirmaries. This total includes 92 males and 62 females. Ninety-seven (97) were called "idiotic," namely 58 males and 39 females. The "epileptics" totaled 66, of whom 31 were males and 35 were females.

Table VIII calls attention more pointedly to the sex and nature of discharge from relief of those persons who passed out of aid during the year. Of the 89,760 cases so dismissed, 46,202 were males and 43,558 were females. Forty-one and five-tenths (41.5) per cent, or 37,293 were released to the care of relatives or friends. About 4 per cent, or 3,587 of the whole number were transferred to other institutions, while 51 per cent of the aggregate were discharged without relatives or friends or other authorities agreeing to look after them. The great majority in this last group were persons assisted through illness, after which they became self-supporting again.

As appears from Table IX the foreign-born who were receiving public relief during the year numbered 94,310 or 22.8 per cent of the entire number of persons aided. This percentage is 2 per cent less than the proportion of foreign born in the population generally, — 24.8 per cent, restricted immigration being accountable for this low per cent. Canada furnished 26,280 of this number; England and Wales, 5,192; Germany, 929; Ireland, 14,370; Italy, 18,461; Russia and Poland, 9,789; Scandinavia, 2,076; Scotland, 1,969 and all other countries, 15,244.

Table X shows the percentage of the various classes aided to the whole number relieved. Thus, of the 412,633 persons relieved, 76.53 per cent were settled cases, receiving their assistance out of local taxes; 23.47 per cent were unsettled, and though relieved by the respective cities and towns, in the first instance in a majority of cases, were ultimately aided out of the state tax. As to the place in which relief was given, 4.86 per cent of the total were aided in institutions, namely, 2.33 per cent in infirmaries, 1.20 per cent in state institutions, and 1.33 per cent in other institutions, mostly under private management. Outdoor relief, designated as aid "outside," was given in 95.13 per cent of all the cases. Most of these, namely 92.24 per cent, were relieved in their own homes. Aid was given in private families other than the recipient's own — mostly boarded cases — in 2.89 per cent instances. Percentages of age show that 50.21 per cent were minors, 38.03 per cent were between the ages of twenty-one and sixty, and 10.92 per cent were sixty or over. The ages of .84 per cent were unknown. Sexes differ slightly, males rating 49.96 per cent and females 50.04 per cent.

The number of colored persons was very small, totaling only 2.27 per cent.

By reason of thoroughgoing classification in the care of defectives, the percentage of those mentally deficient persons still cared for as poor relief cases is exceedingly small, and tends always to decrease. The mental condition of all the cases aided show, on analysis, that 99.92 per cent were sane, .04 per cent were insane, .02 per cent were idiotic, and .02 per cent were epileptic. The proportion of sane persons in last year's returns was 99.87 per cent.

It is of further interest to view at a glance the numerical relationship to the whole

population of the persons relieved at public expense as appears in Table XI, which exhibits the number of each class in every thousand of the population of the Commonwealth on a basis of the census of 1930. Thus it is shown that in each thousand of the population there were 97.10 indigent persons relieved at public expense. Of these 48.51 were males and 48.59 were females. The native-born numbered 74.41 in the thousand; foreign-born, 22.19; native-born of foreign parentage, 29.98; and those of unknown nativity, .49. The proportion of vagrants reported was 19.52 in the thousand.

COST OF POOR RELIEF

The funds laid out by the several cities and towns for all poor relief within their respective fiscal years are shown in Table XII. The aggregate is classified as "ordinary," or maintenance, and "extraordinary," or special. Together with the ordinary outlays are shown the receipts on account of maintenance, and the difference set out under "net ordinary expenditures." The ordinary outlay is classified as expenses in institutions and outside. The subdivision follows the classification in Table I regarding the nature and the place of aid. The grand total in Table XII shows that an aggregate of \$27,138,621.52 was laid out by the several cities and towns. Of this sum, \$26,912,757.01 was ordinary outlay, or maintenance; the remainder, or \$225,864.51, was expended for sundry improvements, mostly at the city and town infirmaries. Of the money expended for maintenance, \$2,448,830.99 was expended for infirmary care and \$1,153,277.86 for relief in other institutions. Care in private families took \$700,689.96, and relief in the recipients' own homes, i. e., outdoor poor relief, totaled \$20,589,676.88. One million, nineteen thousand seventy-eight dollars and sixty-nine cents (\$1,019,078.69) was expended for Old Age Assistance. The cost of administration, including salary and office expenses of the local public welfare boards, but exclusive of institution administration, came to \$1,001,202.63. The total receipts on account of ordinary expenditures were \$3,653,857.49 — classified as receipts on account of institutions, \$412,085.31; and all other, \$3,241,772.18. This latter portion of the receipts is made up mostly of reimbursements by cities and towns ultimately liable and from the state treasury in unsettled cases. Subtracting receipts leaves \$23,258,899.52 as the net ordinary outlay.

In Table XIII the analysis shown for cities and towns by Table XII is carried out for cases aided out of the State funds. Of the \$3,832,856.99 expended for this purpose, \$3,730,185.53 was on account of ordinary expenditures, laid out as follows: At the State Infirmery, \$535,663.14; at the State Farm, \$35,338.48; at the Massachusetts Hospital School, \$111,851.18, and all other expenditures outside of institutions \$3,047,332.73. Extraordinary expenditures totaled \$102,671.46 — all expended for special improvements at the several institutions just enumerated. Inasmuch as it is impossible to trace institution expenditures to the separate individuals receiving the aid, the figures set out under the State tables of cost are arrived at by taking from net cost of maintenance that proportion which the average number relieved in the institution bears to the average inmate population of the institution.

In Table XIV State and local outlays are added, showing that of the \$27,317,621.02 expended for public poor relief, \$26,989,085.05 was for ordinary outlays, of which \$3,872,876.34 went for institutional relief and \$22,115,006.08 was for relief outside. The total of extraordinary expenditures was \$328,535.97.

To care of relatives and friends:												
Total	30,049	7,244	37,293
Male	15,100	3,560	18,660
Female	14,949	3,684	18,633
To other institutions:												
Total	2,298	1,289	3,587
Male	1,235	713	1,948
Female	1,063	576	1,639
To care of self:												
Total	36,186	9,366	45,552
Male	18,197	5,398	23,595
Female	17,989	3,968	21,957
Died:												
Total	2,522	804	3,326
Male	1,493	506	1,999
Female	1,029	298	1,327

TABLE IX. — *Number of Foreign-born Persons who Received Public Relief during the Year ending March 31, 1932, classified by Countries of Birth.*

	SOURCE OF RELIEF	Cities and Towns	State	Total
Total foreign-born		65,217	29,093	94,310
Number born in:				
Canada		17,551	8,729	26,280
England and Wales		3,875	1,317	5,192
Germany		624	305	929
Ireland		9,483	4,887	14,370
Italy		12,653	5,808	18,461
Russia and Poland		7,322	2,467	9,789
Scandinavia		1,441	635	2,076
Scotland		1,217	752	1,969
Other countries		11,051	4,193	15,244

TABLE X. — *Percentage of the Various Classes of Persons Relieved at Public Expense during the Year ending March 31, 1932, to the Whole Number so Relieved.*

	SOURCE OF RELIEF	
Total number of persons relieved		412,633
Percentage:		
Local		76.53
State		23.47
Place of Relief:		
In institutions:		
Total		4.86
Infirmeries		2.33
Other institutions		1.33
State institutions		1.20
Outside:		
Total		95.13
Private families		2.89
Own homes		92.24
Age:		
20 and under		50.21
21 to 59		38.03
60 and over		10.92
Unknown84
Sex:		
Male		49.96
Female		50.04
Color:		
White		97.73
Colored		2.27
Mental condition:		
Sane		99.92
Insane04
Idiotic02
Epileptic02

TABLE XI. — *Numerical Relation to the Whole Population of the Several Classes of Persons Relieved at Public Expense during the Year ending March 31, 1932.*

Population, 1930	4,249,614
Number per 1,000 of population:	
Of all persons relieved	97.10
Of males	48.51
Of females	48.59
Of native born	74.41
Of foreign born	22.19
Of native born of foreign parentage	29.98
Of unknown birth49
Of vagrants	19.52
